Online Library

z/OS Version 1 Release 2 Collection

December 2001

Note!

Before using this information and the products it supports, be sure to read the general information under Appendix A.

This softcopy collection index is available in an online version in this collection. It has been formatted for viewing by the IBM Softcopy Reader. You can find it (filename EZ2ZOB14.BOO) in its own bookshelf. It is also available as a BookManager file (filename SCINDEX.BOO), and as a PDF file (filename SCINDEX.PDF), in the root directory. The catalog section of the softcopy collection index is available as an HTML file (filename SCINDEX.HTM) and as a text file (filename SCINDEX.TXT), in the root directory.

Fourth Edition (December 2001)

This edition applies to the *z/OS Version 1 Release 2 Collection*, December 2001, SK3T-4269-03.

Requests for IBM publications and additional copies of this collection should be made through your IBM representative, the IBM branch office serving your locality, or IBMLink.

A brief user's survey and comments form appears at the back of this softcopy collection index. After you have used this collection, please take a few minutes and fill it in. You can drop it in the U.S. Mail; the postage has already been paid by IBM. If the form has been removed, or if you have problems installing or using the IBM Online Library, or accessing the books, refer to Do You Have Questions, Problems, or Suggestions? following the index for information on how to contact IBM.

IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.

What's New in This Collection

This section summarizes the product bookshelves, books, or other items that have been added, replaced, or removed since the previous edition, SK3T-4269-02. You may want to refer to Chapter 2, “Catalog of BookManager Files for This Collection” on page 7 for the specific changes that have been made.

Note: Occasionally books move from one bookshelf to another as products are updated or made obsolete. These changes are not listed here. To find a particular book, try one of the following strategies.

- Search one of the online versions of this book:

- EZ2ZOB14.BOO in its own bookshelf
- SCINDEX.BOO in the root directory
- SCINDEX.HTM in the root directory (catalog section only)
- SCINDEX.TXT in the root directory (catalog section only)
- SCINDEX.PDF in the root directory

- Refer to “List of Books in This Collection - Arranged by Order Number” on page 10.
- Search the “All-Disc” bookshelves. See “All-Disc Bookshelves in This Collection” on page 19 for more information.

Replaced

The following items that appeared in the previous edition have been revised because of technical or service changes or enhancements. The previous levels of these items are no longer current and have been removed from this collection. They have been replaced by the revised items.

Product Libraries Replaced	Old Filename	New Filename	Disc
Booklet for z/OS V1R2 Collection, December 2001	EZ2ZOS13	EZ2ZOS14	1,3
GDDM V3R2	ADMDSH04	ADMDSH05	3

z/OS V1R2.0 Messages and Codes Books	EZ2MZ200	EZ2MZ201	1
z/OS V1R2.0 MVS Base Element	IEA2BK10	IEA2BK11	1
z/OS V1R2.0 Network File System	CPN1BS10	CPN1BS11	1
z/OS V1R2.0 Overview	E0Z2BK10	E0Z2BK11	1
z/OS V1R2.0 Planning and Installation	E0Z2IN10	E0Z2IN11	1
z/OS V1R2.0 SecureWay Security Server	ICHZBK10	ICHZBK11	1

Tools Changes

- Starting in March 2001, the IBM Library Readers for Windows, OS/2, and DOS are not being shipped on CD-ROM and DVD collections, and are no longer supported. Instead, only the IBM Softcopy Reader is included on the collections.

The IBM Library Readers will continue to be available as-is from the BookManager Web site for those users who choose to continue to use them.

For more information about BookManager products, including the latest news, go to the BookManager Web site: <http://booksrv2.raleigh.ibm.com>

- This collection now includes a program that helps you install or update the softcopy tools included with this collection.

This install program runs only on Windows 95 (or later), or on Windows NT 4.0 (or later). Users of other operating systems can still install or update the softcopy tools and view the softcopy versions of the collection index and the *Installing, Managing, and Using the Online Library* book directly.

The softcopy tools are on a separate tools disc, instead of on each disc.

- The new IBM Softcopy Reader runs under Windows 95 (or higher), or Windows NT, with the Java Runtime Environment. It consists of a Book Reader and a Bookshelf Organizer that provide expanded support. For example, you can:
 - Use cut, copy and paste commands to move and copy books from one shelf to another
 - Filter lists of bookshelves and books
 - Delete bookshelf files
 - Perform an exact search on bookshelves
 - Search and work with notes using consolidated interfaces

For details, see the README file and user's guide provided in the self-extracting zip file for the program.

- The latest level of the code is available for downloading from:
<http://booksrv2.raleigh.ibm.com/homepage/new.html>
 - The program is also available on this collection in the **ilrjava** directory.
- You may now use the SoftCopy Librarian (SCL) to obtain and manage bookshelves over the Internet, from the IBM PUBLIB Web site, as well as from other Web sites that provide support for the SoftCopy Librarian.

Both Version 3 and Version 4 of SoftCopy Librarian are now included on all collection kits for the IBM Online Library. This free program improves softcopy management on a z/OS or OS/390 host or server, as well as on LANs and workstations. It runs on Windows 95 or later and Windows NT 4.0 or later workstations. Version 4 is the Java version of SCL and provides a new interface and new functions. For an introduction, see the SoftCopy Librarian chapter in *Installing, Managing, and Using the Online Library*, GC31-8311. For details, see the softcopy version of the *SoftCopy Librarian User's Guide*, GC23-3414, which is in the IBM Online Library Reference Bookshelf on any disc in this collection.

An OS/2 version of the SoftCopy Librarian is no longer supported, but is available as-is for downloading from

<ftp://ftp.software.ibm.com/ps/products/ibmreader/tools/ebrsc12.exe>

- The Softcopy Receiver Tool (SCRT) is no longer supported. You should start using the SoftCopy Librarian instead.
- A message lookup facility called LookAt is included in this collection free for your use. LookAt lets you look at z/OS and OS/390 message explanations quickly and easily. LookAt has been expanded to provide the following support:
 - ISPF and SDSF users: You can use a *point-and-shoot* capability to position the cursor under a message ID and press a PF key to tell LookAt to retrieve that message explanation.
 - Palm users: A beta version of LookAt enabling code is available that gives you wireless access to the IBM LookAt Web site using your Palm™ VII personal data assistant.

For more information, see “LookAt - An IBM Message Look Up Facility (Disc 3)” on page 71.

LookAt is also available on the Internet at:

<http://www.ibm.com/servers/s390/os390/bkserv/lookat/lookat.html>

Other Changes

- This collection does not include the hardcopy versions of the collection booklet (this document) and the *Installing, Managing, and Using the Online Library* book.

Softcopy versions are provided in BookManager, PDF, HTML, and ASCII (text) formats in the root directory of each disc in this collection (including the tools disc). The collection booklet is now called the *softcopy collection index*.

To improve access to the softcopy collection index, discs containing the softcopy libraries on this collection automatically display the HTML format of the softcopy collection index if you have autorun enabled on your computer.

For details on the softcopy files and their locations in this edition of the collection, see Chapter 4, “Locating Books in This Collection” on page 63.

If you need hardcopy versions of these books, you can print one of the softcopy formats, such as the PDF format.

- To determine the new name for an element or feature whose name changed, see the index of *z/OS Planning for Installation*, GA22-7504. This index contains one or more entries for the old name. One of these index entries refers to the place in Table 1 that describes the element or feature using its current name, and relates the old name to the current name.
- For information about the elements and features in a specific release of z/OS, see *z/OS Planning for Installation*. Specifically, for V1R2.0:
 - SomObjects is no longer a base element of z/OS.
- For changes in documentation from release to release in OS/390, see the *z/OS Information Roadmap*, SA22-7500.

Contents of the z/OS Version 1 Release 2 Collection

Welcome to the IBM Online Library! ☺

This section describes the contents of this collection.

Topics you may want to look at:	Go to page:
If you want an overview of the contents of this collection and how to start using it, see Chapter 1, Getting Started with This Collection	3
If you want to plan for the hard disk space needed to store this information, see Disc Size Summary	8
If you want to know exactly what BookManager-format books are included in this collection, see Chapter 2, Catalog of BookManager Files for This Collection	7
If you want to know exactly what PDF-format books are included in this collection, see Chapter 3, Catalog of PDF Files for This Collection	47
If you want to know how to find a particular book in this collection, see Chapter 4, Locating Books in This Collection	63
If you want to: <ul style="list-style-type: none">• Know the directories containing the books and other products on this collection• Learn how to use the files and tutorials that may be included in this collection see Chapter 5, Other Items in This Collection	69

Chapter 1. Getting Started with This Collection

This is the *z/OS Version 1 Release 2 Collection*, December 2001, SK3T-4269-03. It contains all the unlicensed books available online for the current release of z/OS base elements and optional features. Using this collection, you can put a large number of IBM books online and access them without handling individual sets of books and libraries on many CD-ROMs and tapes.

This is an IBM Online Library collection. The books in this collection are formatted for display using BookManager BUILD. They can be viewed at your workstation or terminal using any of the following methods.

- The IBM Softcopy Reader, provided at no charge with the library
- AS/400 InfoSeeker, which is provided as a part of the Operating System/400 in Version 3
- Any of the IBM BookManager READ licensed programs for z/VM or or VM
- The IBM BookManager READ component of z/OS or OS/390

This softcopy collection index contains listings of the contents of the collection. It also contains information to help you determine the size of the online books, indexes, and shelves you need to use, as well as hints for customizing and distributing the Online Library to other workstations in your enterprise. *Installing, Managing, and Using the Online Library*, GC31-8311, included with this collection in softcopy, in the root directory and in the IBM Online Library Reference Bookshelf, will help you install and use the collection on your Windows, OS/2, or DOS workstation using this collection, and the IBM Softcopy Reader in it, as a starting point. If you have already installed an IBM Online Library on your workstation or host, you can use the books in this collection with your library as you would use the books in any collection that is part of the IBM Online Library.

For information on using this collection with the IBM reader programs, refer to the IBM Online Library Reference Bookshelf included in this collection.

Note: This softcopy collection index is available in an online version in this collection. It has been formatted for viewing by the IBM reader programs. You can find it (filename EZ2ZOB14.BOO) in its own bookshelf. It is also available as as a BookManager file (filename SCINDEX.BOO) and as a PDF file (filename SCINDEX.PDF), in the root directory. The catalog section of the softcopy collection index is available as an HTML file (filename SCINDEX.HTM) or text file (SCINDEX.TXT), in the root directory.

If You Are New to an IBM Online Library

If you want to install and use an IBM Online Library on your workstation, you should do the following:

- 1** Look at the catalog for a detailed list of the product libraries and other bookshelves in this collection. See Chapter 2, “Catalog of BookManager Files for This Collection” on page 7.
- 2** For a detailed list of PDFs, see Chapter 3, “Catalog of PDF Files for This Collection” on page 47.

- 3** Install the library on your workstation. See *Installing, Managing, and Using the Online Library*, GC31-8311.
- 4** Open the library and list the contents of this collection. See *Installing, Managing, and Using the Online Library*.
- 5** Learn to use the IBM Softcopy Reader. See *Installing, Managing, and Using the Online Library*.

Then, you may want to:

- Customize the library on your workstation. See the BookManager documentation in the Online Library Reference bookshelf.
- Share the library with others. See *Installing, Managing, and Using the Online Library*.

If You Are Already Using an IBM Collection

If you already have an IBM collection installed and know how to use it, you may want to do the following:

- 1** Discover what is new or changed in this collection since the last time it was released. See “What’s New in This Collection” on page vii.
- 2** Look at the catalog for a detailed list of the contents of this collection. See Chapter 2, “Catalog of BookManager Files for This Collection” on page 7.
- 3** For a detailed list of PDFs, see Chapter 3, “Catalog of PDF Files for This Collection” on page 47.
- 4** If you have centralized your online library, move the new or changed books you want from this collection to your LAN server or host. See *Installing, Managing, and Using the Online Library*.

Then, you may want to:

- Run the softcopy tool install program to ensure that you have the latest reader on your workstation. See *Installing, Managing, and Using the Online Library*.

Books on the Internet

The contents of several collections are available for viewing on the World Wide Web at <http://www.ibm.com/servers/eserver/zseries/zos>. Click on Library to view, print, and order z/OS books.

PDF Files for Books in This Collection

Printable files in Portable Document Format (PDF) are available for selected books in this collection. These PDF files are provided in the `\pdf` directory on each disc of this collection (other than the tools disc). The PDF files have the same filenames as the corresponding BookManager BOOK files contained on this collection. For a list of the PDF files, see Chapter 3, “Catalog of PDF Files for This Collection” on page 47.

You can use an Adobe® Acrobat® Reader™ to view and print the PDF files. If you do not already have an Acrobat Reader installed, you may install one from the CD-ROM using the SCTOOLS.EXE program. If this reader is not appropriate for your system, or if you need information about installing and using an Acrobat Reader, see the Adobe Web site at <http://www.adobe.com>

Learning More About the IBM Online Library

To learn more about the IBM Online Library organization and availability, visit the IBM softcopy publications home page on the World Wide Web at:
<http://www.ibm.com/servers/eserver/zseries/softcopy/>

Chapter 2. Catalog of BookManager Files for This Collection

This is the catalog of BookManager files for the z/OS Version 1 Release 2 Collection.

Current Libraries

The product libraries included in this collection contain the latest available updates of the books. Some books have not been updated since the previous release of the product and are still valid for the current release of the product.

This catalog contains:

Book Lists

- All books arranged numerically by order number
- Each book list contains the following information:
- The order number of the printed version of each book
 - The title of each book
 - The file name of each book

Bookshelf Lists

- An all-disc bookshelf for each CD-ROM
 - Bookshelves arranged alphabetically by product
 - Other bookshelves arranged alphabetically
- Each bookshelf list contains the following information:
- The full name of the bookshelf
 - The disc that contains the bookshelf
 - The program number (if the bookshelf contains a product library)
 - The titles of the books
 - The file names of the books, the bookshelf, and the bookshelf search index
 - The sizes of the books, the bookshelf, and the bookshelf search index
 - The total size of the bookshelf

Notes:

1. Sizes are given in megabytes, rounded to the nearest hundredth (1MB = 1 000 000 bytes).
2. The "*" in the first column of the tables identifies the books, bookshelves, and search indexes that are new or changed.

For a complete description of technical and service changes, see the "Summary of Amendments" in the indicated books.

3. The product books, bookshelves, and bookshelf search indexes in the IBM Online Library are named according to the following pattern:

bbbbbbss

Where:

bbbbbb is a six-character identifier for a book, bookshelf, or bookshelf search index. This identifier is always the same for the book to which it is assigned.

ss is a two-digit sequence number that identifies the level of the book, bookshelf, or bookshelf search index. This sequence number changes each time a new level of the book, bookshelf, or bookshelf search index is released.

4. All books in this collection appear in U.S. English.

What's On Each CD?

This collection contains three CD-ROMs of softcopy libraries, as well as a separate tools disc. These CD-ROMs are organized as follows:

Tools disc

Softcopy tools
Install program for softcopy tools

Disc 1

z/OS V1R2.0 Base Elements - BookManager files
z/OS V1R2.0 Optional Features - BookManager files
z/OS V1R2.0 Planning and Installation - BookManager files
z/OS V1R2.0 Messages and Codes - BookManager files

Disc 2

z/OS V1R2.0 Base Elements - PDF files
z/OS V1R2.0 Optional Features - PDF files

Disc 3

z/OS V1R2.0 Base Elements additional libraries - BookManager files
z/OS V1R2.0 Base Elements additional libraries - PDF files
z/OS V1R2.0 Optional Features additional libraries - BookManager files
z/OS V1R2.0 Optional Features additional libraries - PDF files
LookAt Lookup Facility

Each disc also includes online versions of the softcopy collection index and the *Installing, Managing, and Using the Online Library* book.

Estimating Hard Disk Space Requirements

If you are copying books to a hard disk, refer to the sizes of books, bookshelves, and bookshelf search indexes listed in the "Disc Size Summary" and in the individual bookshelf descriptions in the Chapter 2, "Catalog of BookManager Files for This Collection" on page 7.

Disc Size Summary

Title	MB
Disc 1:	
All-disc 1 bookshelf	0.04
All-disc 1 bookindex	84.16
Individual bookshelves on disc 1	0.09
Individual bookindexes on disc 1	140.66

Title	MB
All books on disc 1	354.57
All PDFs on disc 1	N/A
Size of disc 1	579.52
Disc 2:	
All-disc 2 bookshelf	N/A
All-disc 2 bookindex	N/A
Individual bookshelves on disc 2	N/A
Individual bookindexes on disc 2	N/A
All books on disc 2	N/A
All PDFs on disc 2	592.70
Size of disc 2	592.70
Disc 3:	
All-disc 3 bookshelf	0.00
All-disc 3 bookindex	3.60
Individual bookshelves on disc 3	0.00
Individual bookindexes on disc 3	3.73
All books on disc 3	28.24
All PDFs on disc 3	39.39
Size of disc 3	74.97
Total Size of Collection	1247.19

Chapter 4. Locating Books in This Collection

Several aids in this collection can help you find books without having to switch discs frequently.

- For each disc containing BookManager files, an all-disc bookshelf for searching the content of all books on that disc (see “All-Disc Bookshelf”)
- Various formats of the softcopy collection index (see “Softcopy Collection Index”)

Note: The softcopy collection index is an online guide to this collection.

All-Disc Bookshelf

If you haven't narrowed your search to a product library or book but you know which disc to look on, the *All-Disc* bookshelf on that disc can help you find the book you need. After inserting the disc, go to the bookshelf titled *All-Disc x Bookshelf* and use it to search the contents of all the BookManager BOOK files on the disc. This search may take substantial time because you may be searching the contents of several hundred books.

Softcopy Collection Index

This collection includes four formats of a softcopy collection index to help you locate specific books and bookshelves. The available formats are:

- **HTML:** For viewing with a Web browser. For more information about using the HTML file, see “HTML Format of Softcopy Collection Index.”
- **BookManager:** For viewing and searching with the IBM Softcopy Reader. For more information about using the BookManager file, see “BookManager BOOK Format of Softcopy Collection Index” on page 65.

Note: When you select the BookManager format, you might see a warning message prompting you to select whether to open the file or save it to disk. Select *Open it*. Also, to view BookManager files without being interrupted by this warning, uncheck the box *Always ask before opening this type of file*, which is also displayed in this warning message.

- **PDF:** For viewing and printing with an Adobe Acrobat Reader. For more information about using the PDF file, see “PDF Format of Softcopy Collection Index” on page 67.
- **Text (ASCII):** For viewing with a workstation file viewer. For more information about using the TXT file, see “ASCII Text File Format of Softcopy Collection Index” on page 68.

HTML Format of Softcopy Collection Index

The HTML file for the catalog portion of the softcopy collection index is called SCINDEX.HTM. It is in the root directory of each disc in this collection. You can view this file with a Web browser. Netscape and Internet Explorer are two popular browsers. While viewing this HTML file, you can scroll through it or search for an order number, keyword, or phrase in the title of a specific book or bookshelf.

You can set up your browser to link to the books on the CD after you locate the book you want. If you do not set up your browser for links, you can still view and search the HTML file to locate the disc that the book is on.

To use SCINDEX.HTM, do the following:

- 1 Insert any numbered disc from this collection into your CD-ROM drive.
 - 2 Do **one of** the following:
 - If you have autorun enabled, your browser automatically displays SCINDEX.HTM.
 - Otherwise, go to the root directory and open SCFRAME.HTM, which displays SCINDEX.HTM.
 - 3 From SCINDEX.HTM, you can do any of the following:
 - Scroll through SCINDEX.HTM to find what you want.
 - Use the Find function to find the order number, keyword, or phrase in a book or bookshelf title.
- Note:** You may get more than one hit for the same book, because a book might be listed in more than one place.
- 4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.

- 5 Do **one of** the following:

If You Have Set Up Your Browser for Links: Click on the link in SCINDEX.HTM to open the book.

Notes:

- a. For instructions on setting up your browser, see “Setting Up Your Browser to Link to the Books on the CD.”
- b. In SCINDEX.HTM, when you click on a link to a book, you may see a warning message prompting you to select whether to open the file or save it to disk. Select **Open it**. To view files without being interrupted by this warning, uncheck the box **Always ask before opening this type of file**.

If You Have Not Set Up Your Browser for Links: Proceed as usual to locate and open the book with IBM Softcopy Reader.

Setting Up Your Browser to Link to the Books on the CD

You can use the HTML collection index without setting up your browser to link to the BookManager files. However, although you will be able to read what is on each disc in the collection, you will not be able to open the books.

To link to and open the BookManager files from the HTML file, your browser preferences must specify which program it should use to open files with the various BookManager file extensions (BKS, BKSHELF, BKI, BKINDEX, BOO, and BOOK).

If you want your browser to link to BookManager files, first install the IBM Softcopy Reader. You can use the install program provided with this collection to install the reader.

Note: Regardless of how you install the IBM Softcopy Reader, make sure to shut down and restart your browser afterwards. This insures that the browser will invoke the IBM Softcopy Reader to open BookManager files.

If you install a copy of IBM Softcopy Reader from September 2000 (V2.3.1) or later, and agree to have Softcopy Reader be the default reader for BookManager files, the installation process automatically sets up the browser preferences to call IBM Softcopy Reader to open BookManager files.

Otherwise, you cannot set up browser preferences for Softcopy Reader.

Editing and Other Advanced Uses of SCINDEX.HTM

The default links in SCINDEX.HTM use the drive or directory of the page that contains the link. So, if you are viewing SCINDEX.HTM from your CD-ROM drive, the links look for the BookManager book and bookshelf files in that same drive. (Keep in mind that SCINDEX.HTM lists all files on all the discs for the collection. So, a link will fail if the disc inserted in the CD-ROM drive is not the one that contains the file you are trying to link to.)

There are cases when you may need to copy SCINDEX.HTM from the disc and edit it:

- The links assume that the book and bookshelf files are still in \BOOKS and \SHELVES directories. If you moved the files into other directories, you must edit the links in SCINDEX.HTM to point to those directories.
- The links assume that you are using SCINDEX.HTM and the book and bookshelf files from the same drive. There may be situations when you cannot do this. For instance, if you are linking to books that are accessible on a server, you must change the links to match the drive letter on which the books and bookshelves are mounted.

You can also make more advanced uses of the HTML file:

- Put the books and shelves on a network file system (NFS) or local area network (LAN) server and use SCINDEX.HTM as an index to the entire collection. Remember to change the links and directories to match your installation.
- Put the books and shelves on a VM-based byte file system (BFS), or on a z/OS- or OS/390-based hierarchical file system (HFS). This lets you use a large host-based LAN server that gives you access to all the discs and several different collections at once.
- Look at the coding for the links in the HTML and create your own HTML links to launch your own BookManager books. Remember to set your browser preferences correctly.

BookManager BOOK Format of Softcopy Collection Index

The BookManager format of the complete softcopy collection index is provided in two locations, under two different filenames. (Other than the filenames, the two files are identical.)

- The copy accessible from the root directory or through SCFRAME.HTM is called SCINDEX.boo. It is in the root directory of each disc in the collection.

- The other copy is called EZ2ZOB14.BOO. It is located in its own bookshelf on each disc in the collection, other than the tools disc (if a separate tools disc is provided). For example, in the OS/390 Collection the bookshelf is called “Booklet for OS/390 Collection.”

The BookManager format provides the best search function of all the formats. It can also be used to print selected sections of the book, but the PDF format is recommended for printing large sections or an entire book.

You can view either copy of the BOOK file with IBM Softcopy Reader (on your workstation), or with an IBM BookManager READ program (on the host). While viewing the BOOK file, you can scroll through it or search it for an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.BOO, do the following:

- 1 Insert any disc from this collection into your CD-ROM drive.
- 2 Do **one of** the following:
 - If you are viewing the HTML format of the collection index, go to “Other Formats” and select “BookManager.”
 - Otherwise, go to the root directory and open SCINDEX.BOO.
- 3 You can do any of the following:
 - Scroll through SCINDEX.BOO to find what you want.
 - Go directly to the section of SCINDEX.BOO titled “Catalog for *name* Collection” and scroll through the lists.
 - Search for an order number, keyword, or phrase in a book or bookshelf title.

Note: You may get more than one hit for the same book, because a book might be listed in more than one place.
- 4 When you have determined the disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 5 Refresh the view and proceed as usual to locate and open the book.

To use EZ2ZOB14.BOO, do the following:

- 1 Insert any disc from this collection (other than the tools disc, if a separate tools disc is provided) into your CD-ROM drive.
- 2 Display the list of bookshelves. Do **one of** the following:
 - Change to the drive letter of your CD-ROM drive and enter the command to start your reader or select its icon and list the bookshelves on the disc.

The list of bookshelves will appear.
 - Locate the BookManager icon.
 - Click on the start menu and select the BookManager reader.

The list of bookshelves will appear.

- 3 In the list of bookshelves, look for the bookshelf titled “Booklet for *name* Collection.”
- 4 Open the bookshelf.
- 5 Open the booklet.
- 6 You can do any of the following:
 - Scroll through the booklet to find what you want.
 - Go directly to the section of the booklet titled “Catalog for *name* Collection” and scroll through the lists.
 - Search for an order number, keyword, or phrase in a book or bookshelf title.

Note: You may get more than one hit for the same book, because a book might be listed in more than one place.
- 7 When you have determined the disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 8 Refresh the view and proceed as usual to locate and open the book.

PDF Format of Softcopy Collection Index

The PDF file for the complete softcopy collection index is called SCINDEX.PDF. It is in the root directory of each disc in this collection. From the PDF file you can print high-quality output that looks very similar to printed books received from IBM.

You can view the PDF file with an Adobe Acrobat Reader. While viewing the PDF file, you can scroll through it or find an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.PDF, do the following:

- 1 Insert any disc from this collection into your CD-ROM drive.
- 2 Display SCINDEX.PDF. Do **one of** the following:
 - If you are viewing the HTML format of the collection index, go to “Other Formats” and select “PDF.”
 - Locate the icon for Adobe Acrobat Reader on your desktop or program list, then open SCINDEX.PDF from the root directory of the disc in the CD-ROM drive.
 - Go to the root directory and open SCINDEX.PDF.
- 3 You can do any of the following:
 - Scroll through SCINDEX.PDF to find what you want.
 - Use the Search function of the Adobe Acrobat Reader to find the order number, keyword, or phrase in a book or bookshelf title.

Note: You may get more than one hit for the same book, because a book might be listed in more than one place.

- 4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 5 Refresh the view and proceed as usual to locate and open the book.

ASCII Text File Format of Softcopy Collection Index

The ASCII file for the catalog portion of the softcopy collection index is called SCINDEX.TXT. It is in the root directory of each disc in this collection. You can view it with your usual text editor or word processor, such as Notepad. While viewing SCINDEX.TXT, you can scroll through it or find an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.TXT, do the following:

- 1 Insert any disc from this collection into your CD-ROM drive.
- 2 Display SCINDEX.TXT. Do **one of** the following:
 - In a command prompt window, change to the drive letter of your CD-ROM drive and enter the command to start your usual text editor or word processor.
 - Locate the icon for your usual text editor or word processor.
 - Click on the start menu and select your text editor.
- 3 You can do any of the following:
 - Scroll through SCINDEX.TXT to find what you want.
 - Find the order number, keyword, or phrase in a book or bookshelf title.

Note: You may get more than one hit for the same book, because a book might be listed in more than one place.
- 4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 5 Refresh the view and proceed as usual to locate and open the book.

Chapter 5. Other Items in This Collection

In addition to books, bookshelves, and bookshelf search indexes, this collection also contains:

- A program that helps you install or update the softcopy tools included with this collection.

This install program runs only on Windows 95 (or later), or on Windows NT 4.0 (or later). Users of other operating systems can still install or update the softcopy tools and view the softcopy versions of the collection index and the *Installing, Managing, and Using the Online Library* book directly.

- The LookAt message lookup facility. See “LookAt - An IBM Message Look Up Facility (Disc 3)” on page 71.
- The IBM Softcopy Reader.

Note: This reader is enabled to view any online books in BookManager format. This includes online books on the IBM Online Library CD-ROMs or DVDs, online books that you can build yourself using BookManager BUILD programs, and online books that you receive from companies other than IBM. (Before March 1999, the IBM Library Readers could view only the stamped books on IBM Online Library CD-ROMs.)

- **For Users of z/OS, OS/390, Windows 95, and Windows NT:** The SoftCopy Librarian lets you transfer BookManager bookshelves and books to a repository and manage them there. The repository can be set up on a z/OS or OS/390 host, or on a PC or LAN hard drive. The SoftCopy Librarian runs on a workstation with Windows 95 or later, or Windows NT 4.0 or later.

To use the SoftCopy Librarian, you define a repository for the bookshelves and books that you want to manage. When you want to transfer bookshelves and books from a CD, DVD, or hard drive on your workstation to your repository, the SoftCopy Librarian shows you the items that you do not have in your repository and the items that have changed since the last time you transferred bookshelves and books to the repository. The SoftCopy Librarian will only transfer items if they are not already in your repository, or if they are replacements.

- SCINDEX.TXT, a file that contains an ASCII version of the catalog section of this softcopy collection index. This file has been formatted to use a monospace font when displayed.
- SCINDEX.HTM, a file that contains an HTML version of the catalog section of this softcopy collection index.
- SCINDEX.PDF, a file that contains a PDF version of this softcopy collection index.
- SCINDEX.BOO, a file that contains a BookManager version of this softcopy collection index.
- INSTALL.TXT, a file that contains an ASCII version of *Installing, Managing, and Using the Online Library*. This file has been formatted to use a monospace font when displayed.

- BOOKENG.AGR and PLALRENG.AGR, ASCII files that contains the license agreements and terms and conditions for using and copying the books in this collection.

Directories Containing the Files in This Collection

The files on each CD-ROM in this collection are placed in the following directories:

- The **root** directory, containing the files BOOKENG.AGR, PLALRENG.AGR, SCINDEX.xxx., and INSTALL.xxx. If items that appeared in the previous edition have been removed from this collection, the ASCII file DELETED.TXT also appears in this directory.
- The **\shelves** directory, containing a bookshelf file for each bookshelf in this collection and the “all-disc” bookshelf.
- The **\books** directory, containing all the books, a bookshelf search index file for each bookshelf, and one bookshelf search index file for the all-disc bookshelf.
- The **\pdf** directory, containing PDF files for selected books in this collection

The files on the tools disc in this collection are placed in the following directories:

- The **\autohtml** directory, containing files for use with the SCTOOLS.EXE, a program for installing and updating softcopy tools.
- The **\ilrjava** directory, containing IBM Softcopy Reader program in a self-extracting zip file.
- The **\sc1** directory, containing the IBM SoftCopy Librarian.
- The **\acrobat** directory, containing an Acrobat Reader for use in viewing and printing PDF files.
- The **\netscape** directory, containing a Netscape browser for use in viewing HTML files.

Disc 3 in this collection also includes:

- The **\lookat** directory, containing a message lookup facility. See “LookAt - An IBM Message Look Up Facility (Disc 3)” on page 71.

LookAt - An IBM Message Look Up Facility (Disc 3)

What is LookAt?

With LookAt, you can look up message explanations quickly and easily. LookAt is now available for the following:

- Your z/OS or OS/390 host under TSO
- Your Palm™ VII (A “Beta” version)

You can also use LookAt on the following IBM Web site:

<http://www.ibm.com/servers/eserver/zseries/zos/bkserv/lookat/lookat.html>

LookAt on Your Host

LookAt on your host is a REXX EXEC that runs under TSO. Using the simple command, LOOKAT, on your host system, you can retrieve the explanation and any other information associated with any message that you might receive on the host. ISPF and SDSF users can take advantage of a “point-and-shoot” capability. When LookAt is installed, the person installing the code can enable point and shoot. If it is enabled on your system, you can assign the LookAt command to a PF key of your choice. Then, as messages appear, you can position your cursor under the message ID and press your PF key to tell LookAt to retrieve that message explanation.

LookAt uses BookManager READ/MVS to locate and display message information from messages and codes books.

How Do You Use LookAt on Your Host?: Suppose you need information about a message you receive during your host session. You can use the LOOKAT command followed by the message ID and see all the available information related to that message. You can enter the LOOKAT command in a variety of places:

- On TSO, at the “READY” prompt
- In ISPF or SDSF, “point-and-shoot” using a preassigned PF key
- From the ISPF Option 6 Command panel
- From any ISPF command line (prefixed by the letters **TSO** and a space)
- From a UNIX Systems Services shell (such as OMVS, prefixed by the letters TSO and a blank space)

If you are running an ISPF application, you can also split the screen (**F2**) and have your message explanations appear on a portion of the screen that you are using to do your work.

Preparing to Set Up LookAt on Your Host: All the items you need to install and set up LookAt are contained in the LOOKAT directory on disc 3 of this collection.

You can find the instructions for installing LookAt in the “readme” file named LOOKAT.ME.

Notes:

1. If you have a Web connection, the LookAt Web site is always more current than what is on this collection. For the latest data, books, and interface, please use LookAt on the Web at:
<http://www.ibm.com/servers/eserver/zseries/zos/bkserv/lookat/lookat.html>
2. If you are installing on your host system and you have the ability to FTP, LookAt files on the following site are always more current than what is on this collection:
<ftp://ftp.software.ibm.com/ps/products/ibmreader/tools/lookat>

LookAt on Your Palm

A "Beta" version of LookAt enabling code is available that gives you wireless access to the IBM LookAt Web site from your Palm™ VII personal data assistant (PDA).

Setting up LookAt on Your Palm Here's what you do:

1. Make sure that you have the Palm Desktop installed.
2. If you don't have a remote infra-red capability, connect your Palm™ to your workstation or laptop.
3. Locate the LookAt code. You can find it in either of the following locations:
 - From the following IBM Web site:
[//ftp.software.ibm.com/ps/products/ibmreader/tools/lookat](http://ftp.software.ibm.com/ps/products/ibmreader/tools/lookat)
 - From any one of these IBM CD collections:
 - *z/OS Version 1 Release 2 Collection, October 2001, SK3T-4269-02* or later
 - *z/OS Version 1 Release 2 and Software Products DVD Collection, October 2001, SK3T-4271-02* or later
 - *Messages and Codes Collection, October 2001, SK2T-2068-32* or later
 - *OS/390 Collection, September 2001, SK2T-6700-22* or later
4. To get the code, do one of the following:
 - If you are using the Web site:
 - a. Choose or create a directory to contain the LookAt code.
 - b. Point your browser to the Web site.
 - c. Download the code, in a file named LOOKAT.PQA, to the directory you chose.
 - If you are using a CD collection:
 - a. In the collection, locate the disc that contains the LookAt code by checking the disc labels.
 - b. Locate the LAPALM subdirectory.
`d:/LOOKAT/LAPALM/`
5. In the directory you are using or in the LAPALM directory, double click on the file LOOKAT.PQA.
The *Install Tool* window appears.

6. In the *Install Tool* window, click on the **Done** button.

The next time you synchronize, the LookAt icon will appear on your Palm™.

Using LookAt from Your Palm: To look up a message explanation from your Palm™, just click the LookAt icon and follow the instructions on the LookAt page that appears.

Appendix A. Notices

This information was developed for products and services offered in the U.S.A.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe on any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not give you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing
IBM Corporation
North Castle Drive
Armonk, NY 10504-1785
U.S.A.

For license inquiries regarding double-byte (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

IBM World Trade Asia Corporation
Licensing
2-31 Roppongi 3-chome, Minato-ku
Tokyo 106, Japan

The following paragraph does not apply to the United Kingdom or any other country where such provisions are inconsistent with local law:

INTERNATIONAL BUSINESS MACHINES CORPORATION PROVIDES THIS PUBLICATION "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Some states do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement may not apply to you.

This information could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be incorporated in new editions of the publication. IBM may make improvements and/or changes in the product(s) and/or the program(s) described in this publication at any time without notice.

Any references in this information to non-IBM Web sites are provided for convenience only and do not in any manner serve as an endorsement of those Web sites. The materials at those Web sites are not part of the materials for this IBM product and use of those Web sites is at your own risk.

IBM may use or distribute any of the information you supply in any way it believes appropriate without incurring any obligation to you.

Licensees of this program who wish to have information about it for the purpose of enabling: (i) the exchange of information between independently created programs and other programs (including this one) and (ii) the mutual use of the information which has been exchanged, should contact:

IBM Corporation
Mail Station P300
2455 South Road
Poughkeepsie, NY 12601-5400
U.S.A

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee.

The licensed program described in this information and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement, or any equivalent agreement between us.

If you are viewing this information softcopy, the photographs and color illustrations may not appear.

Terms and Conditions for Items in This Collection

This collection contains unlicensed books and licensed programs. Before using or copying the books and programs on this collection, you must first read and agree to the terms and conditions specified for them below. If you do not agree, return this collection to IBM. By using or copying the books and programs on this collection, you agree to the terms and conditions and the license agreement.

Note: To display or print the ASCII files, insert any disc in the collection in your CD-ROM or DVD drive and use the TYPE or PRINT command with the drive letter of your drive. The following examples assume that the drive on your workstation is D. For example, to display or print the BOOKENG.AGR file, use the following commands:

```
type d:\bookeng.agr | more
print d:\bookeng.agr
```

If your drive is not D, replace the d in the examples with the drive letter for your system.

Using and Copying Unlicensed Books

Unlicensed books on this collection have order numbers that begin with the letters "G" or "S." The terms and conditions for using and copying the unlicensed books are stated in a file called BOOKENG.AGR on this disc. The file is in ASCII format and can be displayed or printed from your personal computer.

Using and Distributing the IBM Softcopy Reader Program

The terms and conditions for using and distributing the IBM Softcopy Reader program are stated in a file called PLALRENG.AGR on this collection. The file is in ASCII format and can be displayed or printed from your personal computer.

Where to Find Licensed Books for z/OS

Licensed books for z/OS base elements and optional features can be found in the *z/OS Licensed Product Library*, LK3T-4307.

Cross-Book Linking for z/OS

Books on this collection contain cross-book links to related z/OS books. While reading a z/OS book, you can place the cursor under any part of the title of a referenced z/OS book and press Enter to open the book. After searching and reading the related material, you can close the referenced book to return to the original book.

Cross-book linking is available with many of the BookManager READ products. Check the BookManager READ documentation included in this collection for more information.

If you are using BookManager READ/MVS, which is included in z/OS, all books to which you want to link must be on the same bookshelf. The books must also:

- Be in sequential data sets with a fixed record length of 4096
- Be in the same catalog
- Be on the same volume
- Be in the same RACF group

Do You Have Questions, Problems, or Suggestions?

For problems using the Softcopy Reader, you may send an e-mail to bookmgr@us.ibm.com to directly contact BookManager Product Support.

For problems installing or using the library, or accessing books:

In the U.S.A.

Do the following:

- 1** Call the IBM Support Center, 1+800+237-5511. You will first connect with a voice menu. Press **0** at any time to connect with a customer service representative.
- 2** Tell the customer rep your customer number (access code). If you do not have a customer number, use **BookMgr** as your generic customer number or access key.
- 3** The customer rep will ask you if this is a new or an existing problem. Answer:
 - **New** if this is the first time you have called about this problem.
 - **Existing** if you have a problem management record (PMR) number already assigned to the problem.

Note: Make sure you have your PMR number available.
- 4** The customer rep will ask you what software product operating system you are using. Answer "My product ID is 5648-032-00 and the queue is SCKIT,118."
- 5** Give the customer rep your name, address, phone number, and a description of the problem. The customer rep will generate your PMR and queue it to SCKIT.
- 6** Hang up and wait for a call back.

In Other Countries

For detailed instructions on how to contact IBM, and for the contact telephone numbers in worldwide locations, go to the Software Support Handbook page on the World Wide Web at:

<http://techsupport.services.ibm.com/guides/handbook.html>

In All Locations

For problems, questions, or suggestions about any of the books, contact IBM:

- **Mail** the Readers' Comments form from the back of this booklet or one that you printed from an online book, or address comments to:
IBM Corporation
Department 55JA, Mail Station P384
2455 South Road
Poughkeepsie, NY 12601-5400
U.S.A.
- **FAX** comments to:
In the U.S. and Canada: 1+845+432-9405
In other countries.: IAC+1+845+432-9405
- **Send** comments electronically to:
Internet: mhvrcfs@us.ibm.com
World Wide Web: <http://www.ibm.com/servers/eserver/zseries/softcopy/feedback.htm>

IBMLink: IBMUSM10(MHVRCFS)

If you do not use the Readers' Comments form, please mention the order number of this collection (SK3T-4269-03) or the book you are using in your comments. If you would like a reply, include your name and address, your company's name, and your phone or FAX number.

IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.

Communicating Your Comments to IBM

Online Library
z/OS Version 1 Release 2 Collection
December 2001
Publication No. GC23-3433-03

For problems installing or using the library, or accessing books, see Do You Have Questions, Problems, or Suggestions?. For problems, questions, or suggestions about any of the books, contact IBM.

If you especially like or dislike anything about this book, please use one of the methods listed below to send your comments to IBM. Whichever method you choose, make sure you send your name, address, and telephone number if you would like a reply.

Feel free to comment on specific errors or omissions, accuracy, organization, subject matter, or completeness of this book. However, the comments you send should pertain to only the information in this manual and the way in which the information is presented. To request additional publications, or to ask questions or make comments about the functions of IBM products or systems, you should talk to your IBM representative or to your IBM authorized remarketer.

When you send comments to IBM, you grant IBM a nonexclusive right to use or distribute your comments in any way it believes appropriate without incurring any obligation to you.

If you are mailing an RCF from a country other than the United States, you can give the RCF to the local IBM branch office or IBM representative for postage-paid mailing.

- If you prefer to send comments by mail, use the RCF at the back of this book.
- If you prefer to send comments by FAX, use this number:
 - FAX: (International Access Code)+1+845+432-9405
- If you prefer to send comments electronically, use this network ID:
 - IBMLink: (United States customers only): IBMUSM10(MHVRCFS)
 - Internet e-mail: mhvrcfs@us.ibm.com
 - World Wide Web: <http://www.ibm.com/servers/eserver/zseries/softcopy/feedback.htm>

Make sure to include the following in your note:

- Title and publication number of this book
- Page number or topic to which your comment applies

Optionally, if you include your telephone number, we will be able to respond to your comments by phone.
