Note!

Before using this information and the products it supports, be sure to read the general information under Appendix A.

This softcopy collection index is available in online version in this collection. You can find it (file name EZ2ZSB72.BOO and EZ2ZSB72.PDF) in their own shelves. It is also available as a BookManager file (file name SCINDEX.BOO), and as a PDF file (file name SCINDEX.PDF), in the root directory. The catalog section of the softcopy collection index is available as an HTML file (file name SCINDEX.HTM) and as a text file (file name SCINDEX.TXT), in the root directory.

| **Twentieth Edition (September 2007)**

| This edition applies to the *Online Library: z/OS Software Products Collection*, September 2007, SK3T-4270-19.

Requests for IBM publications and additional copies of this collection should be made through your IBM representative, the IBM branch office serving your locality, or IBMLink.

A brief user's survey and comments form appears at the back of this softcopy collection index. After you have used this collection, please take a few minutes and fill it in. You can drop it in the U.S. Mail; the postage has already been paid by IBM. If the form has been removed, or if you have problems installing or using the IBM Online Library, or accessing the books, refer to Do you have questions, problems, or suggestions? following the index for information on how to contact IBM.

IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.

What's new in this collection

This section summarizes changes made to the collection since the previous edition:

- BookManager product library changes
- Tools changes
- Other changes

BookManager product library changes

This section summarizes the BookManager product libraries that have been added, replaced, or removed since the previous edition, SK3T-4270-18. You might want to refer to Chapter 2, “Catalog of BookManager documents in this collection” on page 7 for the specific changes that have been made.

Note: Occasionally books move from one bookshelf to another as products are updated or made obsolete. These changes are not listed here. To find a particular book, try one of the following strategies.

- Search one of the online versions of this book:

Tools changes

Streamlined packaging, improved access to softcopy

- Starting in September 2006, the program for setting autorun preferences (AUTORUN.EXE) has been updated to handle tabbed browsers. The program will no longer close an open collection browser window upon inserting a new disc.
- Starting in August 2003, the program for setting autorun preferences has been updated for IBM Softcopy Reader 3.0, which supports extended shelves (XKS files) for PDFs. Extended shelves enable users to access groups of PDFs through the Shelf Organizer in Softcopy Reader.

See “Setting autorun preferences for collection discs” on page 223 for more information.

- Starting in June 2003, the program for setting autorun preferences has been:
 - Updated to support the latest level of IBM Softcopy Reader (which was repackaged to eliminate the prerequisite for the Java Runtime Environment on the client machine)
 - Recoded to comply with accessibility standards
 - Renamed from SETUP.EXE to AUTORUN.EXE

See “Setting autorun preferences for collection discs” on page 223 for more information.

- Starting in December 2002, on collections containing both BookManager and PDF files, PDFINDEX.HTM (the index to only the PDF files in the collection) is accessible through the interface to the softcopy collection index. For more information, see “Softcopy PDF Index” on page 231.
- Starting in June 2002, collections containing both BookManager and PDF files include an index to only the PDF files in the collection. The index is available in both HTML and text formats (PDFINDEX.HTM and PDFINDEX.TXT) in the root directory of the discs containing the softcopy files.
- Starting in March 2002, you can set autorun preferences for the programs to run when a collection disc is inserted in your disc drive. For example, you can choose to automatically start Softcopy Reader, the softcopy index for the entire collection, or the softcopy index for a single disc when you insert a disc containing softcopy files. Or, you can choose not to have anything start automatically. See “Setting autorun preferences for collection discs” on page 223 for more information.

To provide more options for accessing softcopy, multi-disc collections include softcopy indexes for each disc in the collection, as well as a softcopy index for the entire collection.

- Starting in June 2001, the softcopy collection index for a multi-disc collection is automatically displayed when you insert any of the discs other than the tools disc.
- Starting in September 2000, many IBM softcopy collections include a program to simplify installation of softcopy tools and improve access to the softcopy collection index files included on the collections. Here are the highlights of these redesigned collections:

- Instead of hardcopy collection indexes (booklets), softcopy versions are provided in the root directory of each disc.
- Instead of a hardcopy version of the *Installing, Managing, and Using the Online Library* book, softcopy versions are provided in the root directory of each disc.
- For multi-disc CD-ROM collections, all the softcopy tools are on a separate tools disc, instead of on each disc. For single-disc CD-ROM libraries and collections, the tools are on the same disc as the softcopy publications. For all DVD collections, the tools are on each DVD in the collection.
- A program helps you install or update softcopy tools.

This install program runs only on Windows 95 (or later), or on Windows NT 4.0 (or later). Users of other operating systems can still install or update the softcopy tools and view the softcopy versions of the collection index and the *Installing, Managing, and Using the Online Library* book directly.

IBM Softcopy Reader and IBM Library Readers

- The latest level of the IBM Softcopy Reader code is available for downloading from:

<http://www.ibm.com/software/office/bkmgr/softcopyread.html>

Softcopy Reader for Windows and Softcopy Reader for Linux are also available on this collection in the **\ilrjava** directory. The level of the code on this collection is what was available when this collection was built.

- For an introduction to Softcopy Reader, see the Softcopy Reader chapter in *Installing, Managing, and Using the Online Library*, GC31-8311. For details, see the softcopy version of the *Softcopy Reader User's Guide*, SC34-3164, which is in the IBM Online Library Reference Bookshelf.
- Starting in September 2006, IBM Softcopy Reader V3.6 or later can search indexed extended shelves of PDFs. When a PDF is selected from the search results list, Softcopy Reader launches Adobe Reader and the IBM Advanced Linguistic Search Plug-in for Adobe V1.3 or later to produce a ranked list of highlighted search results within the selected PDF.

The IBM Advanced Linguistic Search Plug-in for Adobe V1.3 or later runs on a Windows client and requires Adobe Reader or Adobe Acrobat 7 (or later). The latest level of the plug-in is available for downloading from:

<http://www.ibm.com/software/applications/office/bkmgr/adobepugin.html>

It is also available on this collection in the \plugins directory. The level of the code on this collection is what was available when this collection was built.

- Starting in November 2004, IBM Softcopy Reader can search the BOOK files in an extended shelf.
- Starting in September 2004, IBM Softcopy Reader for Linux is shipped in the **\ilrjava** directory along with IBM Softcopy Reader for Windows. Softcopy Reader for Linux is currently not supported by the program for installing softcopy tools or by the autorun preferences program, both of which run only under Windows.
- Starting in October 2003, Softcopy Reader for Windows is supported only on Windows™ 2000 and Windows XP.

- Starting in August 2003, a new release (3.0) of the Softcopy Reader for Windows is being shipped on softcopy collections. This release supports extended shelves (XKS files) for PDFs. Extended shelves enable users to access groups of PDFs through the Shelf Organizer in Softcopy Reader.

Softcopy Reader's Bookshelf Organizer has been renamed to "Shelf Organizer," in recognition of the capabilities of the new extended shelf (XKS file) format. The Shelf Organizer can now launch the user's choice of PDF file readers (for example, Adobe Reader). The Shelf Organizer can also create and modify extended shelves.

Initially, extended shelves include only PDF publications. Additional publication formats are expected to be added to the extended shelf format in the future.

- Starting in March 2003, a new release (2.4.0) of the Softcopy Reader for Windows is being shipped on softcopy collections. This release has been repackaged using a special tool to link the Java Runtime functions along with the Softcopy Reader application code, building it into a Windows executable instead of a jar file. In addition to eliminating the prerequisite for the Java Runtime Environment on the client machine, this change has significantly improved runtime performance.
- Starting in March 2001, the IBM Library Readers for Windows, OS/2, and DOS are not being shipped on softcopy collections, and are no longer supported. Instead, only the IBM Softcopy Reader is included on the collections.

The IBM Library Readers will continue to be available as-is from the BookManager Web site for those users who choose to continue to use them.

For more information about BookManager products, including the latest news, go to the BookManager Web site:

<http://www.ibm.com/software/office/bkmgr/>

IBM SoftCopy Librarian

- The latest level of the IBM SoftCopy Librarian code is available for downloading from:

<http://publib.boulder.ibm.com/epubs/df/ebrsclwj.exe>

The program is also available on this collection in the `\scl` directory. The level of the code on this collection is the one that was available when this collection was built.

- For an introduction to SoftCopy Librarian, see the SoftCopy Librarian chapter in *Installing, Managing, and Using the Online Library*, GC31-8311. For details, see the softcopy version of the *SoftCopy Librarian User's Guide*, GC23-3414, which is in the IBM Online Library Reference Bookshelf.
- Starting in October 2003, SoftCopy Librarian is supported only on Windows™ 2000 and Windows XP.
- Starting in August 2003, a new release (4.2) of SoftCopy Librarian supports downloading and management of PDFs via extended shelves (XKS files).

This release has been repackaged using a special tool to link the Java Runtime functions along with the SoftCopy Librarian application code, building it into a Windows executable instead of a jar file. In addition to eliminating the prerequisite for the Java Runtime Environment on the client machine, this change has significantly improved runtime performance.

- Starting in June 2002, SoftCopy Librarian (SCL) Version 3 is no longer included on softcopy collections. Only SCL Version 4 is included. Support for SCL Version 3 will be discontinued after September 30, 2002.

If you have been using SCL Version 3, use SCL Version 4 instead.

- Starting in September 2001, the Softcopy Receiver Tool (SCRT) is no longer supported. It is being shipped for the last time on the September and October 2001 softcopy collections. Use the SoftCopy Librarian (SCL) instead.

SCL for OS/2 is no longer supported and is provided on an as-is basis. The product code is available for downloading from:

`ftp://ftp.software.ibm.com/ps/products/ibmreader/tools/ebrsc12.exe`

- Starting in June 2001, the Java version of the SoftCopy Librarian, IBM SoftCopy Librarian V4.0 for Windows 95 and NT, is available.

Other changes

- Starting in September 2007, BookManager documents are consolidated on discs 1 through 4. Discs 5 through 11 now contain the PDF documents. See “What’s on each CD?” on page 8 for more information.
- This collection does not include the hardcopy versions of the collection booklet (this document) and the *Installing, Managing, and Using the Online Library* book.

Softcopy versions are provided in BookManager, PDF, HTML, and ASCII (text) formats in the root directory of each disc in this collection (including the tools disc). The collection booklet is now called the *softcopy collection index*.

To improve access to the softcopy collection index, discs containing the softcopy libraries on this collection now include a program to set autorun preferences for the programs to run when a collection disc is inserted. One of the available options is to open the softcopy collection index.

For details on using the various formats of the softcopy collection index, see Chapter 4, “Locating books in this collection” on page 223.

If you need hardcopy versions of these books, you can print one of the softcopy formats, such as the PDF format.

- The graphics in BookManager BOOK files from June 2002 and earlier have been upgraded to improve viewing under BookServer and Softcopy Reader. This upgrade increased the size of the affected files, resulting in the reorganization of some softcopy collections.

For information about the new organization of this collection, see “What’s on each CD?” on page 8. The changes were too extensive to be listed in “What’s new in this collection” on page xi.

Other than this increase in size, the change is transparent. The upgrade did not disturb the original build date and time stamp of the affected BOOK files. None of the existing shelves and indexes are affected by the replacement of these BOOK files.

The upgrade primarily affects BOOK files that were built with host versions of the BookManager Build products and that contain graphic figures and illustrations. The original graphics were copied, converted into a Web-ready format, and inserted into the BOOK files for use with BookServer and Softcopy

Reader. The original graphics still remain for viewing on host platforms. To benefit from the upgraded graphics, you should upgrade to the latest release of Softcopy Reader, Version 2.3.6 or later.

Chapter 1. Getting started with this collection

This is the *Online Library: z/OS Software Products Collection*, September 2007, SK3T-4270-19. It contains all the libraries that are available online for current software products that run on z/OS. Using this collection, you can put a large number of IBM books online and access them without handling individual sets of books and libraries on many CD-ROMs and tapes.

This is an IBM Online Library collection of BookManager and PDF documents. The BookManger documents in this collection are formatted for display using BookManager BUILD. They can be viewed at your workstation or terminal using any of the following methods.

- The IBM Softcopy Reader, provided at no charge with the library
- AS/400 InfoSeeker, which is provided as a part of the Operating System/400 in Version 3
- The IBM BookManager READ licensed program for z/VM
- The IBM BookManager READ component of z/OS

The PDF documents are formatted for display using an Adobe reader. For more information, see "PDF files for documents in this collection" on page 5.

This softcopy collection index contains listings of the contents of this collection. It also contains information to help you determine the size of the online books, indexes, and shelves you need to use, as well as hints for customizing and distributing the Online Library to other workstations in your enterprise.

The document *Installing, Managing, and Using the Online Library*, GC31-8311 will help you install and use this collection on your workstation. The document is provided in various formats (install.xxx) in the root directory of the collection, in the IBM Online Library Reference shelves, and from the "Installation book" tab of the online collection index.

For more information on using this collection, refer to the IBM Online Library Reference shelves included in this collection.

Note: This softcopy collection index is available in various formats in this collection. It has been formatted for viewing by the IBM reader programs and an Adobe reader. You can find it (file name EZ2ZSB72.BOO and EZ2ZSB72.PDF) in its own shelf. It is also available in the root directory as a BookManager file (SCINDEX.BOO) and as a PDF file (SCINDEX.PDF). The catalog section of the softcopy collection index is available in the root directory as an HTML file (SCINDEX.HTM) or text file (SCINDEX.TXT).

If you are new to the IBM Online Library

If you want to install and use an IBM Online Library on your workstation, you should do the following:

- 1** Install the softcopy tools on your workstation. See *Installing, Managing, and Using the Online Library*, GC31-8311.

2 Learn to use the IBM Softcopy Reader. See *Installing, Managing, and Using the Online Library*.

3 Locate specific documents and shelves in this collection. See "Softcopy collection index" on page 224.

Note: Alternately, look in the booklet catalog for a detailed list of the product libraries and other shelves in this collection. For a detailed list of BookManager files, see Chapter 2, "Catalog of BookManager documents in this collection" on page 7, and for a detailed list of PDFs, see Chapter 3, "Catalog of PDF documents in this collection" on page 137.

Then, you might want to:

- Learn more about IBM SoftCopy Reader or SoftCopy Librarian, or customize the library on your workstation. See the documentation in the Online Library Reference bookshelf.
- Share the library with others. See "Using IBM Softcopy Collections in Your Business" in Chapter 1 of *Installing, Managing, and Using the Online Library*.

If you are already using an IBM Online Library collection

If you already have an IBM Online Library collection installed and know how to use it, you may want to do the following:

1 Discover what BookManager files are new or changed in this collection since the last time it was released. See "What's new in this collection" on page xi.

2 Look at the booklet catalog for a detailed list of the contents of this collection. For a detailed list of BookManager files, see Chapter 2, "Catalog of BookManager documents in this collection" on page 7, and for a detailed list of PDFs, see Chapter 3, "Catalog of PDF documents in this collection" on page 137.

3 If you have centralized your online library, move the new or changed books you want from this collection to your LAN server or host. See the chapter "Introducing the SoftCopy Librarian" in *Installing, Managing, and Using the Online Library*.

Then, you might want to:

- Run the softcopy tool install program to ensure that you have the latest tools on your workstation. See the chapter "Program for Installing Softcopy Tools" in *Installing, Managing, and Using the Online Library*.

Documents on the Internet

The contents of several collections are available for viewing on the World Wide Web at <http://www.ibm.com/zseries/zos>. Documents on the Internet might be at a more current level than those on the collections. Click on Library to view, print, and order z/OS documents and to access other System z Internet libraries under the "Other available publications" heading.

PDF files for documents in this collection

Printable files in Portable Document Format (PDF) are available for selected documents in this collection. These PDF files are provided in the \pdf directory as indicated on each disc of this collection (other than the tools disc). The PDF files have the same file names as the corresponding BookManager files contained on this collection. For a list of the PDF files, see Chapter 3, "Catalog of PDF documents in this collection" on page 137.

You can use an Adobe reader to view and print the PDF files.

- If you do not already have an Adobe reader installed, you can install one from the tools disc of this collection using the SCTOOLS.EXE program. If this reader is not appropriate for your system, or if you need information about installing and using an Adobe reader, see the Adobe Web site at <http://www.adobe.com>.
- Softcopy Reader 3.0 or later can be used to access groups of PDFs via extended shelves (XKS files). However, reading the PDF files still requires a separate program, such as Adobe reader. With Softcopy 3.6 or later, extended shelves of PDFs having a shelf index (BKI) can be searched, and PDFs in the search results that have been enabled with the IBM Advanced Linguistic Search Index (or any individual PDFs that have been so enabled) can be searched using the IBM Advanced Linguistic Search Plug-in for Adobe.

Some PDF documents on this collection contain cross-book links. In order for these links to work, the PDFs must be in the same directory. If the documents are on CD-ROMs or DVDs, the documents must also be on the same disc.

PDFs link to each other by file name, and IBM changes a document's file name whenever the document is updated. Thus, a link from an unchanged PDF might not link to a new edition of a target document, because the new edition has a new file name. However, a link from an unchanged PDF will still link to its original target document. Therefore, if you maintain your own PDF repository, IBM recommends that you keep multiple levels of PDFs together in the same directory, to minimize unresolved links. By contrast, BookManager documents link to each other by their base order numbers, which stay the same from release to release, so an unchanged BOOK file can usually link successfully to an updated target BOOK file.

Chapter 2. Catalog of BookManager documents in this collection

This is the catalog of BookManager documents in the z/OS Software Products Collection.

Current Libraries

The product libraries included in this collection contain the latest available updates of the documents. Some documents have not been updated since the previous release of the product and are still valid for the current release of the product.

This catalog contains:

- **A list of BookManager documents** (arranged numerically by order number)
 - This list contains the following information for the BookManager documents:
 - The order number of each document
 - The title of each document
 - The file name of each document
- **Bookshelf lists**
 - An all-disc bookshelf for each CD-ROM
 - Bookshelves arranged alphabetically by product, listing the following information:
 - The title of the bookshelf
 - The disc that contains the bookshelf
 - The program number (if the bookshelf contains a product library)
 - The titles of the BookManager documents
 - The file names of the BookManager documents, the bookshelf, and the bookshelf search index
 - The sizes of the documents, the bookshelf, and the bookshelf search index
 - The total size of the bookshelf

Notes:

1. Sizes are given in megabytes, rounded to the nearest hundredth (1MB = 1 000 000 bytes).
2. The "*" in the first column of the tables identifies the documents, bookshelves, and search indexes that are new or changed.

For a complete description of technical and service changes, see the "Summary of Amendments" (or similar section) in the indicated documents.

3. The product documents, bookshelves, and bookshelf search indexes in the IBM Online Library are generally named according to the following pattern:

bbbbbbss

Where:

bbbbbb is a six-character identifier for a document, bookshelf, or bookshelf search index. This identifier is always the same for the document to which it is assigned.

ss is a two-digit sequence number that identifies the level of the document, bookshelf, or bookshelf search index. This sequence number changes each time a new level of the document, bookshelf, or bookshelf search index is released.

4. All books in this collection appear in U.S. English.

What's on each CD?

This collection contains 11 CD-ROMs of softcopy libraries, as well as a separate tools disc. These CD-ROMs are organized as follows:

Tools disc

Softcopy tools
Install program for softcopy tools

Disc 1

BookManager files for:
Software products (A—DB2 UDB)

Disc 2

BookManager files for:
Software products (DB2 V7—NCP V7R7)

Disc 3

BookManager files for:
Software products (NCP V7R8—S)

Disc 4

BookManager files for:
Software products (T—3890)

Disc 5

PDF files for:
Software products (A—CICS)

Disc 6

PDF files for:
Software products (CICS—DB2 Tools)

Disc 7

PDF files for:
Software products (DB2 UDB—E)

Disc 8

PDF files for:
Software products (F—IMS V8)

Disc 9

PDF files for:
Software products (IMS V9—PSF)

Disc 10

PDF files for:
Software products (QMF—Ti)

Disc 11

PDF files for:
Software products (Ti—Z)

Each disc also includes online versions of the softcopy collection index, a disc index, and the book *Installing, Managing, and Using the Online Library*.

Estimating hard disk space requirements

If you are copying books to a hard disk, refer to the sizes of books, bookshelves, and bookshelf search indexes listed in the “Disc size summary” and in the individual bookshelf descriptions in the Chapter 2, “Catalog of BookManager documents in this collection” on page 7.

Chapter 3. Catalog of PDF documents in this collection

This is the catalog of PDF documents for the z/OS Software Products Collection.

Current Libraries

The product libraries included in this collection contain the latest available updates of the documents. Some documents have not been updated since the previous release of the product and are still valid for the current release of the product.

This catalog contains:

- **A list of PDF documents** (arranged numerically by order number)

This list contains the following information for the PDF documents:

- The order number of each document
- The title of each document
- The PDF file name of each document

- **PDF library lists (including extended shelves)**

Each PDF library list contains the following information:

- The title of the library
- The disc that contains the library
- The program number (if the library is for a product)
- The title of each document
- The file names of the PDF documents, the extended shelf, and the shelf search index (if applicable)
- The sizes of the PDF documents, the extended shelf, and the shelf search index (if applicable)
- The total size of the library

Notes:

1. Sizes are given in megabytes, rounded to the nearest hundredth (1MB = 1 000 000 bytes).
2. The "*" in the first column of the tables identifies the documents, extended shelves, and search indexes that are new or changed.

For a complete description of technical and service changes, see the "Summary of Amendments" (or similar section) in the indicated documents.

3. The PDF documents generally have the same file names as the corresponding BookManager documents. Likewise, extended shelves and search indexes generally have the same file names as the corresponding BookManager bookshelves and search indexes. The documents are named according to the following pattern:

bbbbbbss

Where:

bbbbbb is a six-character identifier for a document, extended shelf, or search index. This identifier is always the same for the document, extended shelf, or search index to which it is assigned.

ss is a two-digit sequence number that identifies the level of the document, extended shelf, or search index. This sequence number changes each time a new level of the document, extended shelf, or search index is released.

4. All documents in this collection appear in U.S. English.

Chapter 4. Locating books in this collection

Several aids in this collection can help you find books.

- A program to set autorun preferences for collection discs (see “Setting autorun preferences for collection discs”)
- For each disc containing BookManager files, an all-disc bookshelf for searching the content of all books on that disc (see “All-Disc bookshelf” on page 224)
- Various formats of the softcopy collection index for searching the titles, order numbers, and file names of softcopy files on the collection (see “Softcopy collection index” on page 224)

Note: The softcopy collection index is an online guide to this collection.

- For each disc other than the tools disc, an index for searching the titles, order numbers, and file names of softcopy files on that specific disc (see “Softcopy disc index” on page 230)
- For collections containing both BookManager and PDF files, an index of only the PDF files on that collection (see “Softcopy PDF Index” on page 231)

Setting autorun preferences for collection discs

This collection includes a program to set autorun preferences for the programs to run when a collection disc is inserted. For example, you can choose to automatically start Softcopy Reader, the softcopy index to the entire collection, or the softcopy index for a single disc. Or, you can choose not to have anything start automatically.

The program (AUTORUN.EXE) runs automatically the first time you insert a disc that contains it. A window opens where you can select the autorun preferences for each type of collection disc. These are the preferences you can set.

Note: Extended shelf files can be opened only by Softcopy Reader 3.0 or later.

- **For discs containing only BookManager documents:**
 - Open the IBM Softcopy Reader.
 - Open the disc index.
 - Open the collection index.
 - Show the autorun preferences window.
 - Do not start any programs.
- **For discs containing BookManager and PDF documents:**
 - Open the IBM Softcopy Reader.
 - Open the disc index.
 - Open the collection index.
 - Show the autorun preferences window.
 - Do not start any programs.
- **For discs containing only PDF documents:**
 - Open the disc index.
 - Open the collection index.
 - Show the autorun preferences window.
 - Do not start any programs.

- **For discs containing PDF and extended shelf documents:**
 - Open the IBM Softcopy Reader. (This option is available only if Softcopy Reader 3.0 or later is installed.)
 - Open the disc index.
 - Open the collection index.
 - Show the autorun preferences window.
 - Do not start any programs.
- **For discs containing BookManager, extended shelf, and PDF documents:**
 - Open the IBM Softcopy Reader.
 - Open the disc index.
 - Open the collection index.
 - Show the autorun preferences window.
 - Do not start any programs.

To set your autorun preferences:

1. For each type of collection disc, select an autorun preference from the selection list.
2. To preview a preference before setting it, select a tool to use now for the current disc.
3. When you are done, click the OK button.

After you save these preferences, the program does not run again unless you have set a preference to run it.

To change your preferences after initially setting them, do one of the following:

- If you are already viewing the collection index (on a disc other than the tools disc), click on the link to AUTORUN.EXE in the tips section.
- Otherwise, go to the root directory of a collection disc (other than the tools disc) and run AUTORUN.EXE.

All-Disc bookshelf

If you have not narrowed your search to a product library or book but you know which disc to look on, the *All-Disc* bookshelf on that disc can help you find the book you need. After inserting the disc, go to the bookshelf titled *All-Disc x Bookshelf* and use it to search the contents of all the BookManager files on the disc. This search can take substantial time because you might be searching the contents of several hundred books.

Note: Single-disc collections include an *All-Collection* bookshelf instead of an *All-Disc* bookshelf.

Softcopy collection index

This collection includes four formats of a softcopy collection index to help you locate specific books and bookshelves. The available formats are:

- **HTML:** For viewing with a Web browser. For more information about using the HTML file, see "HTML format of softcopy collection index" on page 225.

- **BookManager:** For viewing and searching with the IBM Softcopy Reader. For more information about using the BookManager file, see “BookManager format of softcopy collection index” on page 227.

Note: When you select the BookManager format, you might see a warning message prompting you to select whether to open the file or save it to disk. Select *Open it*. Also, to view BookManager files without being interrupted by this warning, uncheck the box *Always ask before opening this type of file*, which is also displayed in this warning message.

- **PDF:** For viewing and printing with an Adobe reader. For more information about using the PDF file, see “PDF format of softcopy collection index” on page 229.
- **Text (ASCII):** For viewing with a workstation file viewer. For more information about using the TXT file, see “ASCII text file format of softcopy collection index” on page 230.

HTML format of softcopy collection index

The HTML file for the catalog portion of the softcopy collection index is called SCINDEX.HTM. It is in the root directory of each disc in this collection. The best way to use this file is by opening SCFRAME.HTM (the interface to the softcopy collection index) under Internet Explorer 5.0 or later, which enables you to make full use of the support provided in SCFRAME.HTM. While viewing this HTML file, you can scroll through it or search for an order number, keyword, or phrase in the title of a specific book or bookshelf.

You can set up your browser to link to the books on the CD after you locate the book you want. If you do not set up your browser for links to BookManager files, you can still view and search the HTML file to locate the disc that the book is on. For instructions on setting up your browser, see “Setting up your browser to link to the books on the disc” on page 226.

Note: If you transfer the softcopy files on a collection to a softcopy repository, you might want to provide the same access to these files as you have when the softcopy collection index (SCINDEX.HTM) is loaded within the SCFRAME.HTM frameset on a collection disc. For more information, see *Installing, Managing, and Using the Online Library*, GC31-8311.

To use SCINDEX.HTM, do the following:

- 1 Insert any numbered disc from this collection into your CD-ROM drive.
- 2 Do **one of** the following:
 - If you have set your autorun preferences to open the collection index for the type of disc you inserted, your browser automatically displays SCINDEX.HTM.
 - If you are viewing the PDF index, click on the PDF index tab to switch to the collection index.
 - If you are viewing the disc index, click on the Disc index tab to switch to the collection index.

- If you are viewing some other document in SCFRAME.HTM, move your cursor over the Collection index, Disc index, or PDF index tab. Use the radio buttons to select the collection index.
- Otherwise, go to the root directory and open SCFRAME.HTM, which displays SCINDEX.HTM as part of SCFRAME.HTM.

3 When viewing SCINDEX.HTM, you can do any of the following:

- Scroll through SCINDEX.HTM to find what you want.
- Use the Find function to find the order number, keyword, or phrase in a book or bookshelf title.

Notes:

- a. You might get more than one hit for the same book, because a book might be listed in more than one place.
- b. If you are viewing the softcopy collection index through SCFRAME.HTM under Internet Explorer, you can use a Find option that displays all the hits in a separate window. To use this option, click on "Options" next to the "Find" button. The options will be displayed above the "Find" button. Click on the "Show all hits" box.

4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.

5 Do **one** of the following:

If you have set up your browser for links to BookManager and PDF documents: Click on the link in SCINDEX.HTM to open the book.

Notes:

- a. For instructions on setting up your browser, see "Setting up your browser to link to the books on the disc."
- b. When you click on a link to a book, you might see a warning message prompting you to select whether to open the file or save it to disk. Select *Open it*. To view files without being interrupted by this warning, uncheck the box *Always ask before opening this type of file*.
- c. If you are viewing the softcopy collection index through SCFRAME.HTM under Internet Explorer, and you click on a link for a book that is not on the disc that is currently inserted, you will see a message that tells you which disc to insert in order to view the selected book.

If you have not set up your browser links to BookManager and PDF documents: Proceed as usual to locate and open the book with IBM Softcopy Reader (for BookManager files) or Adobe reader (for PDF files).

Setting up your browser to link to the books on the disc

You can use the HTML collection index without setting up your browser to link to the BookManager files. However, although you will be able to see a list of the contents of the collection, you will not be able to open the books from the softcopy index.

To link to and open the BookManager files from the HTML file, your browser preferences must specify which program it should use to open files with the various

BookManager file extensions. When you install IBM Softcopy Reader 2.3.8 or later, it automatically provides this MIME-type information to simplify access to BookManager files through a browser interface.

If you want your browser to link to BookManager files, first install the IBM Softcopy Reader. You can use the install program provided with this collection to install the reader.

Note: Regardless of how you install the IBM Softcopy Reader, make sure to shut down and restart your browser afterwards. This ensures that the browser will invoke the IBM Softcopy Reader to open BookManager files.

BookManager format of softcopy collection index

The BookManager format of the complete softcopy collection index is provided in two locations, under two different file names. (Other than the file names, the two files are identical.)

- The copy accessible from the root directory or through SCFRAME.HTM is called SCINDEX.BOO. It is in the root directory of each disc in this collection.
- The other copy is called EZ2ZSB72.BOO. It is located in its own bookshelf on each disc in the collection, other than the tools disc.

The BookManager format provides the best search function of all the formats. It can also be used to print selected sections of the book, but the PDF format is recommended for printing large sections or an entire book.

You can view either copy of the BOOK file with IBM Softcopy Reader (on your workstation), or with an IBM BookManager READ program (on the host). While viewing the BOOK file, you can scroll through it or search it for an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.BOO, do the following:

1 Insert any disc from this collection into your CD-ROM drive.

2 Do **one of** the following:

- If you are viewing the HTML format of the collection index, go to “Other Formats” and select “BookManager.”
- If you are viewing the PDF index, click on the PDF index tab to switch to the collection index. Then go to “Other Formats” and select “BookManager.”
- If you are viewing the disc index, click on the Disc index tab to switch to the collection index. Then go to “Other Formats” and select “BookManager.”
- If you are viewing some other document in SCFRAME.HTM, move your cursor over the Collection index, Disc index, or PDF index tab. Use the radio buttons to select the collection index. Then go to “Other Formats” and select “BookManager.”
- Otherwise, go to the root directory and open SCINDEX.BOO.

3 You can do any of the following:

- Scroll through SCINDEX.BOO to find what you want.
- Go directly to the section of SCINDEX.BOO titled “Catalog of BookManager Files for This Collection.” and scroll through the lists.
- Search for an order number, keyword, or phrase in a book or bookshelf title.

Note: You might get more than one hit for the same book, because a book might be listed in more than one place.

4 When you have determined the disc the book is on, replace the disc you are looking at with the correct disc, if necessary.

5 Proceed as usual to locate and open the book.

To use EZ2ZSB72.BOO, do the following:

1 Insert any numbered disc from this collection into your CD-ROM drive.

2 Display the list of bookshelves. Do **one of** the following:

- If you have set your autorun preferences to open the IBM Softcopy Reader for the type of disc you inserted, your browser automatically displays the list of bookshelves.
- In a command prompt window, change to the drive letter of your CD-ROM drive and enter the command to start your reader or select its icon and list the bookshelves on the disc.

The list of bookshelves will appear.

- Locate the BookManager icon.
- Click on the start menu and select the BookManager reader.

The list of bookshelves will appear.

3 In the list of bookshelves, look for the bookshelf titled “Catalog of BookManager Files for This Collection.”

4 Open the bookshelf.

5 Open the booklet.

6 You can do any of the following:

- Scroll through the booklet to find what you want.
- Go directly to the section of the booklet titled “Catalog of BookManager Files for This Collection.” and scroll through the lists.
- Search for an order number, keyword, or phrase in a book or bookshelf title.

Note: You might get more than one hit for the same book, because a book might be listed in more than one place.

7 When you have determined the disc the book is on, replace the disc you are looking at with the correct disc, if necessary.

- 8 Refresh the bookshelf view in Bookshelf Organizer and proceed as usual to locate and open the book.

Note: If you are using Softcopy Reader 2.3.5 or later, the bookshelf view is automatically refreshed by default.

PDF format of softcopy collection index

The PDF file for the complete softcopy collection index is called SCINDEX.PDF. It is in the root directory of each disc in this collection. From the PDF file you can print high-quality output that looks very similar to printed books received from IBM.

You can view the PDF file with an Adobe reader. While viewing the PDF file, you can scroll through it or find an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.PDF, do the following:

- 1 Insert any disc from this collection into your CD-ROM drive.
- 2 Display SCINDEX.PDF. Do **one of** the following:
 - If you are viewing the HTML format of the collection index, go to “Other Formats” and select “PDF.”
 - If you are viewing the PDF index, click on the PDF index tab to switch to the collection index. Then go to “Other Formats” and select “PDF.”
 - If you are viewing the disc index, click on the Disc index tab to switch to the collection index. Then go to “Other Formats” and select “PDF.”
 - If you are viewing some other document in SCFRAME.HTM, move your cursor over the Collection index, Disc index, or PDF index tab. Use the radio buttons to select the collection index. Then go to “Other Formats” and select “PDF.”
 - Locate the icon for Adobe reader on your desktop or program list, then open SCINDEX.PDF from the root directory of the disc in the CD-ROM drive.
 - Go to the root directory and open SCINDEX.PDF.
- 3 You can do any of the following:
 - Scroll through SCINDEX.PDF to find what you want.
 - Use the search function to find the order number, keyword, or phrase in a book or bookshelf title.

Note: You might get more than one hit for the same book, because a book might be listed in more than one place.
- 4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 5 Refresh the view and proceed as usual to locate and open the book.

ASCII text file format of softcopy collection index

The ASCII file for the catalog portion of the softcopy collection index is called SCINDEX.TXT. It is in the root directory of each disc in this collection. You can view it with your usual text editor or word processor, such as Notepad. While viewing SCINDEX.TXT, you can scroll through it or find an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.TXT, do the following:

- 1 Insert any disc from this collection into your CD-ROM drive.
- 2 Display SCINDEX.TXT. Do **one of** the following:
 - In a command prompt window, change to the drive letter of your CD-ROM drive and enter the command to start your usual text editor or word processor.
 - Locate the icon for your usual text editor or word processor.
 - Click on the start menu and select your text editor.
- 3 You can do any of the following:
 - Scroll through SCINDEX.TXT to find what you want.
 - Find the order number, keyword, or phrase in a book or bookshelf title.
Note: You might get more than one hit for the same book, because a book might be listed in more than one place.
- 4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 5 Refresh the view and proceed as usual to locate and open the book.

Softcopy disc index

Each disc of this collection includes an HTML file listing the softcopy files on that specific disc. This file is called DISC.HTM and is in the root directory of each disc of this collection. You can view this file with a Web browser. While viewing this HTML file, you can scroll through it or search for an order number, keyword, or phrase in the title of a specific book or bookshelf.

You can set up your browser to link to the books on the disc after you locate the book you want. If you do not set up your browser for links to BookManager files, you can still view and search the HTML file to locate the disc that the book is on.

To use DISC.HTM, do the following:

- 1 Insert a disc from this collection into your CD-ROM drive.
- 2 Do **one of** the following:
 - If you have set your autorun preferences to open the disc index for the type of disc you inserted, your browser automatically displays DISC.HTM.

- If you are viewing the collection index, click on the Collection index tab to switch to the disc index.
- If you are viewing the PDF index, click on the PDF index tab to switch to the disc index.
- If you are viewing some other document in SCFRAME.HTM, move your cursor over the Collection index, Disc index, or PDF index tab. Use the radio buttons to select the disc index.
- Otherwise, go to the root directory and open SCFRAME.HTM. Place your cursor over the Collection index tab, then click on the radio button for the disc index.

3 From DISC.HTM, you can do any of the following:

- Scroll through DISC.HTM to find what you want.
- Use the Find function to find the order number, keyword, or phrase in a book or bookshelf title.

Note: You might get more than one hit for the same book, because a book might be listed in more than one place.

4 Do **one of** the following:

If you have set up your browser for links to BookManager documents:
Click on the link in DISC.HTM to open the book.

Notes:

- a. For instructions on setting up your browser, see “Setting up your browser to link to the books on the disc” on page 226.
- b. In DISC.HTM, when you click on a link to a book, you might see a warning message prompting you to select whether to open the file or save it to disk. Select *Open* it. To view files without being interrupted by this warning, uncheck the box *Always ask before opening this type of file*.

If you have not set up your browser links to BookManager documents:
Proceed as usual to locate and open the book with IBM Softcopy Reader.

Softcopy PDF Index

Each numbered disc of this collection includes an HTML file listing only the PDF files contained on this collection. This file is called PDFINDEX.HTM and is in the root directory of each disc of this collection except the tools disc. You can view this file with a Web browser. While viewing this HTML file, you can scroll through it or search for an order number, keyword, or phrase in the title of a specific book.

To use PDFINDEX.HTM, do the following:

1 Insert any numbered disc from this collection into your CD-ROM drive.

2 Do **one of** the following:

- If you are viewing the collection index or disc index, click on the Collection index or Disc index tab to switch to the PDF index.

- If you are viewing some other document in SCFRAME.HTM, move your cursor over the Collection index, Disc index, or PDF index tab. Use the radio buttons to select the PDF index.
- Otherwise, go to the root directory and open SCFRAME.HTM. Place your cursor over the Collection index tab, then click on the radio button for the PDF index.

3 From PDFINDEX.HTM, you can do any of the following:

- Scroll through PDFINDEX.HTM to find what you want.
- Use the Find function to find the order number, keyword, or phrase in a book title.

Note: You might get more than one hit for the same book, because a book might be listed in more than one place.

4 Do **one of** the following:

If you have set up your browser to open PDF documents: Click on the link in PDFINDEX.HTM to open the book.

Note: In PDFINDEX.HTM, when you click on a link to a book, you might see a warning message prompting you to select whether to open the file or save it to disk. Select *Open it*. To view files without being interrupted by this warning, uncheck the box *Always ask before opening this type of file*.

If you have not set up your browser to open PDF documents: Proceed as usual to locate and open the book with an Adobe reader.

Chapter 5. Other items in this collection

In addition to books, bookshelves, and bookshelf search indexes, this collection also contains:

- **Retrieval aids:**

- **SCINDEX.xxx:** The softcopy collection index, in various formats, which lists and links to all the softcopy books on this collection. For more information, see “Softcopy collection index” on page 224.
- **DISC.HTM:** A disc-specific, single-disc softcopy index, which lists and links to all the softcopy books on the disc that contains this file. For more information, see “Softcopy disc index” on page 230.
- **PDFINDEX.xxx:** The PDF collection index, in various formats, which lists and links to all the books in PDF format on this collection. For more information, see “Softcopy PDF Index” on page 231.

- **Softcopy tools and related documentation:**

- **INSTALL.xxx:** The *Installing, Managing, and Using the Online Library* book, in various formats which describes the softcopy tools on this collection.
- **SCTOOLS.EXE:** A program to install or update softcopy tools.
SCREADME.TXT: Instructions for SCTOOLS.EXE.
- **AUTORUN.EXE:** A program to set or change preferences for accessing softcopy books when a disc is inserted. For more information, see “Setting autorun preferences for collection discs” on page 223.
- **IBM Softcopy Reader:** A program to help you view BookManager books, bookshelves, and extended shelves; search books and bookshelves; and organize books, bookshelves, and extended shelves.
- **IBM Advanced Linguistic Search Plug-in for Adobe:** A program to help you perform advanced linguistic searching with Adobe Reader or Adobe Acrobat 7 (or later) for PDFs enabled with the IBM Advanced Linguistic Search Index.
- **IBM SoftCopy Librarian:** A program to help you manage BookManager files (including extended shelves) in a repository and download BookManager files (including extended shelves) from the Internet.
- **Adobe Reader:** A program to help you view and print PDF files.

Terms and conditions for items in this collection

This collection contains unlicensed books and licensed programs. Before using or copying the books and programs on this collection, you must first read and agree to the terms and conditions specified for them below. If you do not agree, return this collection to IBM. By using or copying the books and programs on this collection, you agree to the terms and conditions and the license agreement.

Note: To display or print the ASCII files, insert any disc in the collection in your CD-ROM or DVD drive and use the TYPE or PRINT command with the drive letter of your drive. The following examples assume that the drive on your workstation is D. For example, to display or print the BOOKENG.AGR file, use the following commands:

```
type d:\bookeng.agr | more  
print d:\bookeng.agr
```

If your drive is not D, replace the d in the examples with the drive letter for your system.

Using and copying unlicensed books

Unlicensed books on this collection have order numbers that begin with the letters "G" or "S." The terms and conditions for using and copying the unlicensed books are stated in a file called BOOKENG.AGR on this disc. The file is in ASCII format and can be displayed or printed from your personal computer.

Using and distributing the IBM Softcopy Reader program

The terms and conditions for using and distributing the IBM Softcopy Reader program are stated in a file called PLALRENG.AGR on this collection. The file is in ASCII format and can be displayed or printed from your personal computer.
