

Licensed Program Specifications

Basic Tape Library Support Licensed Program Specifications for z/OS or z/OS.e DFSMS Version 1 Release 5 (and future releases) Program Number 5655-056

| The Basic Tape Library Support (BTLS) program offering provides basic automation support for the IBM 3494 and 3495 Tape Library Dataserver in a non-system-managed tape environment. BTLS is a limited-function offering available for z/OS or z/OS.e DFSMS Version 1 Release 5 (and future releases).

The Basic Tape Library Support offering supports the IBM 3494 and 3495 Tape Library Dataserver by providing:

- Direct device allocation
- Automation for tape mounts/demounts
- Exploitation of integrated cartridge loaders
- Utility services for reports

Specified Operating Environment

The Basic Tape Library Support program offering uses only existing interfaces.

| **Hardware Requirements:** See the hardware requirements for z/OS or z/OS.e Version 1 Release 5.

| **Software Requirements:** The Basic Tape Library Support requires z/OS or z/OS.e DFSMS Version 1 Release 5.

Warranty

This program is warranted as specified in the IBM license.

Licensed Program Specifications may be updated from time to time, and such updates may constitute a change in specifications.

Following the discontinuance of all program services, this program will be provided "As Is" as specified in the IBM license.

References in this publication to IBM products, programs, or services do not imply that IBM intends to make these available in all countries in which IBM operates. Any reference to an IBM product, program, or service is not intended to state or imply that only IBM's product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any of IBM's intellectual property rights may be used instead of the IBM product, program, or service.

Any other documentation with respect to this licensed program, including any documentation referenced herein, is provided for reference purposes only and does not extend or modify these specifications.
