*March 2002*

Online Library Omnibus Edition

# VSE Collection

*March 2002*

**Note!**

Before using this information and the products it supports, be sure to read the general information under Appendix A.

This softcopy collection index is available in an online version in this collection. It has been formatted for viewing by the IBM Softcopy Reader. You can find it (filename EZ2VSB21.BOO) in its own bookshelf. It is also available as a BookManager file (filename SCINDEX.BOO), and as a PDF file (filename SCINDEX.PDF), in the root directory. The catalog section of the softcopy collection index is available as an HTML file (filename SCINDEX.HTM) and as a text file (filename SCINDEX.TXT), in the root directory.

**Twenty-first Edition (March 2002)**

This edition applies to the *IBM Online Library Omnibus Edition: VSE Collection*, March 2002, SK2T-0060-20.

Requests for IBM publications and additional copies of this collection should be made through your IBM representative, the IBM branch office serving your locality, or IBMLink.

A brief user's survey and comments form appears at the back of this softcopy collection index. After you have used this collection, please take a few minutes and fill it in. You can drop it in the U.S. Mail; the postage has already been paid by IBM. If the form has been removed, or if you have problems installing or using the IBM Online Library, or accessing the books, refer to Do You Have Questions, Problems, or Suggestions? following the index for information on how to contact IBM.

IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.

## What's New in This Collection

This section summarizes the product bookshelves, books, or other items that have been added, replaced, or removed since the previous edition, SK2T-0060-19. It also includes a summary of product bookshelves that have moved from one disc to another. You may want to refer to Chapter 2, "Catalog of BookManager Files for This Collection" on page 7 for the specific changes that have been made.

**Note:** Occasionally books move from one bookshelf to another as products are updated or made obsolete. These changes are not listed here. To find a particular book, try one of the following strategies.

- Search one of the online versions of this book:
  - EZ2VSB21.BOO in its own bookshelf
  - SCINDEX.BOO in the root directory
  - SCINDEX.HTM in the root directory (catalog section only)
  - SCINDEX.TXT in the root directory (catalog section only)
  - SCINDEX.PDF in the root directory
- Refer to "List of Books in This Collection - Arranged by Order Number" on page 10.
- Search the "All-Disc" bookshelves. See "All-Disc Bookshelves in This Collection" on page 28 for more information.

---

### New

The following items have been added to this collection for the first time.

Product Libraries Added	Filename	Disc
QMF V7R2 VSE	DSQSHS80	2

---

### Replaced

The following items that appeared in the previous edition have been revised because of technical or service changes or enhancements. The previous levels of these items are no longer current and have been removed from this collection. They have been replaced by the revised items.

Product Libraries Replaced	Old Filename	New Filename	Disc
Booklet for VSE Collection, March 2002	EZ2VSS14	EZ2VSS21	1,2
CICS Family	DFHZAP11	DFHZAP12	1
CICS for VSE/ESA 2.3	DFHVSH17	DFHVSH19	1
CICS Transaction Server for VSE/ESA V1R1.1	DFHWSH09	DFHWSH0A	1
CICS/ESA V4R1	DFHLSH29	DFHLSH2A	2
GDDM V3R2	ADMDSH04	ADMDSH05	2
High Level Assembler for MVS & VM & VSE V1R4.0	ASMSH010	ASMSH011	1
IBM Online Library Reference Bookshelf	AB0RWT2D	AB0RWT2E	1,2
Language Environment for VSE V1R4.2	FL2LEE20	FL2LEE21	1
VSE/ESA V2R6	IESVSE30	IESVSE31	1

---

## Removed

The following items that appeared in the previous edition have been removed from this collection because they either are no longer current, contain errors, or were not ready at the time this collection went into production.

Product Libraries Removed	Filename
SQL/DS V3R5.0 for IBM VSE Systems	ARIVMI04

**Note:** For a detailed list of books that have been deleted from bookshelves, see the ASCII file DELETED.TXT in the root directory.

---

## Tools Changes

- Starting in March 2001, the IBM Library Readers for Windows, OS/2, and DOS are not being shipped on CD-ROM and DVD collections, and are no longer supported. Instead, only the IBM Softcopy Reader is included on the collections.

The IBM Library Readers will continue to be available as-is from the BookManager Web site for those users who choose to continue to use them.

For more information about BookManager products, including the latest news, go to the BookManager Web site: <http://booksrv2.raleigh.ibm.com>

- This collection now includes a program that helps you install or update the softcopy tools included with this collection.

This install program runs only on Windows 95 (or later), or on Windows NT 4.0 (or later). Users of other operating systems can still install or update the softcopy tools and view the softcopy versions of the collection index and the *Installing, Managing, and Using the Online Library* book directly.

The softcopy tools are on a separate tools disc, instead of on each disc.

- The new IBM Softcopy Reader runs under Windows 95 (or higher), or Windows NT, with the Java Runtime Environment. It consists of a Book Reader and a Bookshelf Organizer that provide expanded support. For example, you can:
  - Use cut, copy and paste commands to move and copy books from one shelf to another
  - Filter lists of bookshelves and books
  - Delete bookshelf files
  - Perform an exact search on bookshelves
  - Search and work with notes using consolidated interfaces

For details, see the README file and user's guide provided in the self-extracting zip file for the program.

- The latest level of the code is available for downloading from:  
<http://booksrv2.raleigh.ibm.com/homepage/new.html>
  - The program is also available on this collection in the **librjava** directory.
- You may now use the SoftCopy Librarian (SCL) to obtain and manage bookshelves over the Internet, from the IBM PUBLIB Web site, as well as from other Web sites that provide support for the SoftCopy Librarian.

Both Version 3 and Version 4 of SoftCopy Librarian are now included on all collection kits for the IBM Online Library. This free program lets you transfer BookManager bookshelves and books to a repository and manage them there. The repository can be set up on a z/OS, z/OS.e, or OS/390 host, or on a PC or LAN hard drive. You can access the books and bookshelves in these repositories with a BookManager READ program (such as READ/MVS or Softcopy Reader) or use the repositories to support BookManager BookServer. SoftCopy Librarian runs on Windows 95 or later and Windows NT 4.0 or later workstations. Version 4 is the Java version of SCL and provides a new interface and new functions. For an introduction, see the SoftCopy Librarian chapter in *Installing, Managing, and Using the Online Library*, GC31-8311. For details, see the softcopy version of the *SoftCopy Librarian User's Guide*, GC23-3414, which is in the IBM Online Library Reference Bookshelf on any disc in this collection.

An OS/2 version of the SoftCopy Librarian is no longer supported, but is available as-is for downloading from

`ftp://ftp.software.ibm.com/ps/products/ibmreader/tools/ebrsc12.exe`

- The Softcopy Receiver Tool (SCRT) is no longer supported, and is no longer shipped on softcopy collections. You should start using the SoftCopy Librarian instead.

---

## Other Changes

- This collection does not include the hardcopy versions of the collection booklet (this document) and the *Installing, Managing, and Using the Online Library* book.

Softcopy versions are provided in BookManager, PDF, HTML, and ASCII (text) formats in the root directory of each disc in this collection (including the tools disc). The collection booklet is now called the *softcopy collection index*.

To improve access to the softcopy collection index, discs containing the softcopy libraries on this collection automatically display the HTML format of the softcopy collection index if you have autorun enabled on your computer.

For details on the softcopy files and their locations in this edition of the collection, see Chapter 4, "Locating Books in This Collection" on page 79.

If you need hardcopy versions of these books, you can print one of the softcopy formats, such as the PDF format.

- This collection now contains PDF files for VSE manuals translated into German and Spanish.

The German books are as follows:

- VSE/ESA V2R6 Release Guide
- VSE/ESA V2R6 Installation
- VSE/ESA V2R6 System Control Statements
- VSE/ESA V2R6 Messages and Codes Volumes 1-3
- VSE/Power V6R6 Administration and Operation

The Spanish books are as follows:

- VSE/ESA V2R6 Planning
- VSE/ESA V2R6 Installation
- VSE/ESA V2R6 System Control Statements

- VSE/ESA V2R6 Messages and Codes Volumes 1-3
- VSE/Power V6R6 Administration and Operation

---

# Contents of the VSE Collection

Welcome to the IBM Online Library! ☺

This section describes the contents of this collection.

Topics you may want to look at:	Go to page:
If you want an overview of the contents of this collection and how to start using it, see <b>Chapter 1, Getting Started with This Collection</b>	3
If you want to plan for the hard disk space needed to store this information, see <b>Disc Size Summary</b>	8
If you want to know exactly what BookManager-format books are included in this collection, see <b>Chapter 2, Catalog of BookManager Files for This Collection</b>	7
If you want to know exactly what PDF-format books are included in this collection, see <b>Chapter 3, Catalog of PDF Files for This Collection</b>	71
If you want to know how to find a particular book in this collection, see <b>Chapter 4, Locating Books in This Collection</b>	79
If you want to: <ul style="list-style-type: none"><li>• Know the directories containing the books and other products on this collection</li><li>• Learn how to use the files and tutorials that may be included in this collection</li></ul> see <b>Chapter 5, Other Items in This Collection</b>	89

---

## Chapter 1. Getting Started with This Collection

This is the *IBM Online Library Omnibus Edition: VSE Collection*, March 2002, SK2T-0060-20. It contains all the libraries that are available online for current VSE system products and for current licensed programs that run on VSE. Using this collection, you can put a large number of IBM books online and access them without handling individual sets of books and libraries on many CD-ROMs and tapes.

This is an IBM Online Library collection. The books in this collection are formatted for display using BookManager BUILD. They can be viewed at your workstation or terminal using any of the following methods.

- The IBM Softcopy Reader, provided at no charge with the library
- AS/400 InfoSeeker, which is provided as a part of the Operating System/400 in Version 3
- Any of the IBM BookManager READ licensed programs for z/VM or or VM
- The IBM BookManager READ component of z/OS or OS/390

This softcopy collection index contains listings of the contents of the collection. It also contains information to help you determine the size of the online books, indexes, and shelves you need to use, as well as hints for customizing and distributing the Online Library to other workstations in your enterprise. *Installing, Managing, and Using the Online Library*, GC31-8311, included with this collection in softcopy, in the root directory and in the IBM Online Library Reference Bookshelf, will help you install and use the collection on your Windows, OS/2, or DOS workstation using this collection, and the IBM Softcopy Reader in it, as a starting point. If you have already installed an IBM Online Library on your workstation or host, you can use the books in this collection with your library as you would use the books in any collection that is part of the IBM Online Library.

For information on using this collection with the IBM reader programs, refer to the IBM Online Library Reference Bookshelf included in this collection.

**Note:** This softcopy collection index is available in an online version in this collection. It has been formatted for viewing by the IBM reader programs. You can find it (filename EZ2VSB21.BOO) in its own bookshelf. It is also available as as a BookManager file (filename SCINDEX.BOO) and as a PDF file (filename SCINDEX.PDF), in the root directory. The catalog section of the softcopy collection index is available as an HTML file (filename SCINDEX.HTM) or text file (SCINDEX.TXT), in the root directory.

---

### If You Are New to an IBM Online Library

If you want to install and use an IBM Online Library on your workstation, you should do the following:

- 1** Look at the catalog for a detailed list of the product libraries and other bookshelves in this collection. See Chapter 2, "Catalog of BookManager Files for This Collection" on page 7.

- 2** For a detailed list of PDFs, see Chapter 3, “Catalog of PDF Files for This Collection” on page 71.
- 3** Install the library on your workstation. See *Installing, Managing, and Using the Online Library*, GC31-8311.
- 4** Open the library and list the contents of this collection. See *Installing, Managing, and Using the Online Library*.
- 5** Learn to use the IBM Softcopy Reader. See *Installing, Managing, and Using the Online Library*.

Then, you may want to:

- Customize the library on your workstation. See the BookManager documentation in the Online Library Reference bookshelf.
- Share the library with others. See *Installing, Managing, and Using the Online Library*.

---

## If You Are Already Using an IBM Collection

If you already have an IBM collection installed and know how to use it, you may want to do the following:

- 1** Discover what is new or changed in this collection since the last time it was released. See “What’s New in This Collection” on page vii.
- 2** Look at the catalog for a detailed list of the contents of this collection. See Chapter 2, “Catalog of BookManager Files for This Collection” on page 7.
- 3** For a detailed list of PDFs, see Chapter 3, “Catalog of PDF Files for This Collection” on page 71.
- 4** If you have centralized your online library, move the new or changed books you want from this collection to your LAN server or host. See *Installing, Managing, and Using the Online Library*.

Then, you may want to:

- Run the softcopy tool install program to ensure that you have the latest reader on your workstation. See *Installing, Managing, and Using the Online Library*.

---

## Books on the Internet

The contents of several collections are available for viewing on the World Wide Web at <http://www.ibm.com/servers/s390/os390/bkserv/>. Click on Library to view, print, and order VSE books.

---

## PDF Files for Books in This Collection

Printable files in Portable Document Format (PDF) are available for selected books in this collection. These PDF files are provided in the \pdf directory on disc 3 of this collection. The PDF files have the same filenames as the corresponding BookManager BOOK files contained on this collection. For a list of the PDF files, see Chapter 3, "Catalog of PDF Files for This Collection" on page 71.

You can use an Adobe® Acrobat® Reader™ to view and print the PDF files. If you do not already have an Acrobat Reader installed, you may install one from the CD-ROM using the SCTOOLS.EXE program. If this reader is not appropriate for your system, or if you need information about installing and using an Acrobat Reader, see the Adobe Web site at <http://www.adobe.com>

---

## Learning More About the IBM Online Library

To learn more about the IBM Online Library organization and availability, visit the IBM softcopy publications home page on the World Wide Web at:  
<http://www.ibm.com/servers/eserver/zseries/softcopy/>

---

## Chapter 2. Catalog of BookManager Files for This Collection

This is the catalog of BookManager files for the VSE Collection.

### Current Libraries

The product libraries included in this collection contain the latest available updates of the books. Some books have not been updated since the previous release of the product and are still valid for the current release of the product.

This catalog contains:

#### Book Lists

- All books arranged numerically by order number
- Each book list contains the following information:
- The order number of the printed version of each book
  - The title of each book
  - The file name of each book

#### Bookshelf Lists

- An all-disc bookshelf for each CD-ROM
  - Bookshelves arranged alphabetically by product
  - Other bookshelves arranged alphabetically
- Each bookshelf list contains the following information:
- The full name of the bookshelf
  - The disc that contains the bookshelf
  - The program number (if the bookshelf contains a product library)
  - The titles of the books
  - The file names of the books, the bookshelf, and the bookshelf search index
  - The sizes of the books, the bookshelf, and the bookshelf search index
  - The total size of the bookshelf

#### Notes:

1. Sizes are given in megabytes, rounded to the nearest hundredth (1MB = 1 000 000 bytes).
2. The "\*" in the first column of the tables identifies the books, bookshelves, and search indexes that are new or changed.

For a complete description of technical and service changes, see the "Summary of Amendments" in the indicated books.

3. The product books, bookshelves, and bookshelf search indexes in the IBM Online Library, as well as new or replaced IBM system center books, are named according to the following pattern:

*bbbbbbss*

Where:

*bbbbbb* is a six-character identifier for a book, bookshelf, or bookshelf search index. This identifier is always the same for the book to which it is assigned.

ss is a two-digit sequence number that identifies the level of the book, bookshelf, or bookshelf search index. This sequence number changes each time a new level of the book, bookshelf, or bookshelf search index is released.

4. All books in this collection appear in U.S. English.

---

## What's On Each CD?

This collection contains three CD-ROMs of softcopy libraries, as well as a separate tools disc. These CD-ROMs are organized as follows:

### Tools disc

Softcopy tools  
Install program for softcopy tools

### Disc 1

VSE/ESA Version 2 Base Libraries  
Language Environment and Compiler Libraries

### Disc 2

VSE/ESA Version 1 Base Libraries  
Other Libraries

### Disc 3

PDF files

Each disc also includes online versions of the softcopy collection index and the *Installing, Managing, and Using the Online Library* book.

## Estimating Hard Disk Space Requirements

If you are copying books to a hard disk, refer to the sizes of books, bookshelves, and bookshelf search indexes listed in the "Disc Size Summary" and in the individual bookshelf descriptions in the Chapter 2, "Catalog of BookManager Files for This Collection" on page 7.

---

## Disc Size Summary

Title	MB
<b>Disc 1:</b>	
All-disc 1 bookshelf	0.06
All-disc 1 bookindex	79.90
Individual bookshelves on disc 1	0.08
Individual bookindexes on disc 1	97.42
All books on disc 1	381.85
All PDFs on disc 1	N/A
<b>Size of disc 1</b>	<b>559.30</b>
<b>Disc 2:</b>	
All-disc 2 bookshelf	0.04
All-disc 2 bookindex	57.95

<b>Title</b>	<b>MB</b>
Individual bookshelves on disc 2	0.05
Individual bookindexes on disc 2	54.87
All books on disc 2	286.45
All PDFs on disc 2	N/A
<b>Size of disc 2</b>	<b>399.37</b>
<b>Disc 3:</b>	
All-disc 3 bookshelf	N/A
All-disc 3 bookindex	N/A
Individual bookshelves on disc 3	N/A
Individual bookindexes on disc 3	N/A
All books on disc 3	N/A
All PDFs on disc 3	344.45
<b>Size of disc 3</b>	<b>344.45</b>
<b>Total Size of Collection</b>	<b>1303.12</b>

## List of Books in This Collection - Arranged by Order Number

Order No.	Title	Filename	Disc
GA22697410	S/360 S/370 S/390 I/O Interface Channel to Control Unit OEMI	DZ9AR110	2

## Chapter 4. Locating Books in This Collection

Several aids in this collection can help you find books.

- For each disc containing BookManager files, an all-disc bookshelf for searching the content of all books on that disc (see “All-Disc Bookshelf” on page 80)
- Various formats of the softcopy collection index for searching the titles, order numbers, and file names of softcopy files on the collection (see “Softcopy Collection Index” on page 80)

**Note:** The softcopy collection index is an online guide to this collection.

- For each disc other than the tools disc, an index for searching the titles, order numbers, and file names of softcopy files on that specific disc (see “Softcopy Disc Index” on page 86)
- A program to set autorun preferences for collection discs (see “Setting Autorun Preferences for Collection Discs”)

---

### Setting Autorun Preferences for Collection Discs

This collection includes a program to set autorun preferences for the programs to run when a collection disc is inserted. For example, you can choose to automatically start Softcopy Reader, the softcopy index to the entire collection, or the softcopy index for a single disc. Or, you can choose not to have anything start automatically.

The program (SETUP.EXE) runs automatically the first time you insert a disc that contains it. A window opens where you can select the autorun preferences for each type of collection disc. These are the preferences you can set:

- **For discs containing only BookManager files:**
  - Open the IBM Softcopy Reader.
  - Open the disc index.
  - Open the collection index.
  - Do not start any programs.
  - Show the autorun preferences window.
- **For discs containing only PDF files:**
  - Open the disc index.
  - Open the collection index.
  - Do not start any programs.
  - Show the autorun preferences window.
- **For discs containing both BookManager and PDF files:**
  - Open the IBM Softcopy Reader.
  - Open the disc index.
  - Open the collection index.
  - Do not start any programs.
  - Show the autorun preferences window.

To set your autorun preferences:

1. For each type of collection disc, select an autorun preference.

Use the selection list or Back and Next buttons to select the type of collection disc.

2. When you are done, click the Finish button.

You can preview a preference before setting it by clicking on one of the "Open... now" buttons.

After you save these preferences, the program does not run again unless you have set a preference to run it.

To change your preferences after initially setting them, do one of the following:

- If you are already viewing the collection index (on a disc other than the tools disc), click on the link to SETUP.EXE in the tips section.
- Otherwise, go to the root directory of a collection disc (other than the tools disc) and run SETUP.EXE.

---

## All-Disc Bookshelf

If you haven't narrowed your search to a product library or book but you know which disc to look on, the *All-Disc* bookshelf on that disc can help you find the book you need. After inserting the disc, go to the bookshelf titled *All-Disc x Bookshelf* and use it to search the contents of all the BookManager BOOK files on the disc. This search can take substantial time because you might be searching the contents of several hundred books.

---

## Softcopy Collection Index

This collection includes four formats of a softcopy collection index to help you locate specific books and bookshelves. The available formats are:

- **HTML:** For viewing with a Web browser. For more information about using the HTML file, see "HTML Format of Softcopy Collection Index" on page 81.
- **BookManager:** For viewing and searching with the IBM Softcopy Reader. For more information about using the BookManager file, see "BookManager BOOK Format of Softcopy Collection Index" on page 83.

**Note:** When you select the BookManager format, you might see a warning message prompting you to select whether to open the file or save it to disk. Select *Open it*. Also, to view BookManager files without being interrupted by this warning, uncheck the box *Always ask before opening this type of file*, which is also displayed in this warning message.

- **PDF:** For viewing and printing with an Adobe Acrobat Reader. For more information about using the PDF file, see "PDF Format of Softcopy Collection Index" on page 84.
- **Text (ASCII):** For viewing with a workstation file viewer. For more information about using the TXT file, see "ASCII Text File Format of Softcopy Collection Index" on page 85.

## HTML Format of Softcopy Collection Index

The HTML file for the catalog portion of the softcopy collection index is called SCINDEX.HTM. It is in the root directory of each disc in this collection. You can view this file with a Web browser. Netscape and Internet Explorer are two popular browsers. While viewing this HTML file, you can scroll through it or search for an order number, keyword, or phrase in the title of a specific book or bookshelf.

You can set up your browser to link to the books on the CD after you locate the book you want. If you do not set up your browser for links to BookManager files, you can still view and search the HTML file to locate the disc that the book is on.

To use SCINDEX.HTM, do the following:

**1** Insert any numbered disc from this collection into your CD-ROM drive.

**2** Do **one of** the following:

- If you have set your autorun preferences to open the collection index for the type of disc you inserted, your browser automatically displays SCINDEX.HTM.
- If you are viewing the disc index, click on the Disc index tab to switch to the collection index.
- If you are viewing some other document in SCFRAME.HTM, move your mouse over the Collection index or Disc index tab. Use the radio buttons to select the collection index.
- Otherwise, go to the root directory and open SCFRAME.HTM, which displays SCINDEX.HTM as part of SCFRAME.HTM.

**3** When viewing SCINDEX.HTM, you can do any of the following:

- Scroll through SCINDEX.HTM to find what you want.
- Use the Find function to find the order number, keyword, or phrase in a book or bookshelf title.

**Note:** You might get more than one hit for the same book, because a book might be listed in more than one place.

**4** When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.

**5** Do **one of** the following:

**If You Have Set Up Your Browser for Links to BookManager Files:** Click on the link in SCINDEX.HTM to open the book.

**Notes:**

- a. For instructions on setting up your browser, see “Setting Up Your Browser to Link to the Books on the CD” on page 82.
- b. In SCINDEX.HTM, when you click on a link to a book, you might see a warning message prompting you to select whether to open the file or save it to disk. Select **Open it**. To view files without being interrupted by this warning, uncheck the box **Always ask before opening this type of file**.

### **If You Have Not Set Up Your Browser Links to BookManager Files:**

Proceed as usual to locate and open the book with IBM Softcopy Reader.

### **Setting Up Your Browser to Link to the Books on the CD**

You can use the HTML collection index without setting up your browser to link to the BookManager files. However, although you will be able to read what is on each disc in the collection, you will not be able to open the books from the softcopy index.

To link to and open the BookManager files from the HTML file, your browser preferences must specify which program it should use to open files with the various BookManager file extensions (BKS, BKSHELF, BKI, BKINDEX, BOO, and BOOK).

If you want your browser to link to BookManager files, first install the IBM Softcopy Reader. You can use the install program provided with this collection to install the reader.

**Note:** Regardless of how you install the IBM Softcopy Reader, make sure to shut down and restart your browser afterwards. This insures that the browser will invoke the IBM Softcopy Reader to open BookManager files.

### **Editing and Other Advanced Uses of SCINDEX.HTM**

The default links in SCINDEX.HTM use the drive or directory of the page that contains the link. So, if you are viewing SCINDEX.HTM from your CD-ROM drive, the links look for the BookManager book and bookshelf files in that same drive. (Keep in mind that SCINDEX.HTM lists all files on all the discs for the collection. So, a link will fail if the disc inserted in the CD-ROM drive is not the one that contains the file you are trying to link to.)

There are cases when you might need to copy SCINDEX.HTM from the disc and edit it:

- The links assume that the book and bookshelf files are in \BOOKS and \SHELVES directories. If you moved the files into other directories, you must edit the links in SCINDEX.HTM to point to those directories.
- The links assume that you are using SCINDEX.HTM and the book and bookshelf files from the same drive. There might be situations when you cannot do this. For instance, if you are linking to books that are accessible on a server, you must change the links to match the drive letter on which the books and bookshelves are mounted.

You can also make more advanced uses of the HTML file:

- Put the books and shelves on a network file system (NFS) or local area network (LAN) server and use SCINDEX.HTM as an index to the entire collection. Remember to change the links and directories to match your installation.
- Put the books and shelves on a VM-based byte file system (BFS), or on a z/OS- or OS/390-based hierarchical file system (HFS). This lets you use a large host-based LAN server that gives you access to all the discs and several different collections at once.
- Look at the coding for the links in the HTML and create your own HTML links to launch your own BookManager books. Remember to set your browser preferences correctly.

## BookManager BOOK Format of Softcopy Collection Index

The BookManager format of the complete softcopy collection index is provided in two locations, under two different filenames. (Other than the filenames, the two files are identical.)

- The copy accessible from the root directory or through SCFRAME.HTM is called SCINDEX.BOO. It is in the root directory of each disc in the collection.
- The other copy is called EZ2VSB21.BOO. It is located in its own bookshelf on each disc in the collection, other than the tools disc (if a separate tools disc is provided). For example, in the OS/390 Collection the bookshelf is called “Booklet for OS/390 Collection.”

The BookManager format provides the best search function of all the formats. It can also be used to print selected sections of the book, but the PDF format is recommended for printing large sections or an entire book.

You can view either copy of the BOOK file with IBM Softcopy Reader (on your workstation), or with an IBM BookManager READ program (on the host). While viewing the BOOK file, you can scroll through it or search it for an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

### To use SCINDEX.BOO, do the following:

1 Insert any disc from this collection into your CD-ROM drive.

2 Do **one of** the following:

- If you are viewing the HTML format of the collection index, go to “Other Formats” and select “BookManager.”
- If you are viewing the disc index, click on the Disc index tab to switch to the collection index. Then go to “Other Formats” and select “BookManager.”
- If you are viewing some other document in SCFRAME.HTM, move your mouse over the Collection index or Disc index tab. Use the radio buttons to select the collection index. Then go to “Other Formats” and select “BookManager.”
- Otherwise, go to the root directory and open SCINDEX.BOO.

3 You can do any of the following:

- Scroll through SCINDEX.BOO to find what you want.
- Go directly to the section of SCINDEX.BOO titled “Catalog for *name* Collection” and scroll through the lists.
- Search for an order number, keyword, or phrase in a book or bookshelf title.

**Note:** You might get more than one hit for the same book, because a book might be listed in more than one place.

4 When you have determined the disc the book is on, replace the disc you are looking at with the correct disc, if necessary.

5 Refresh the view and proceed as usual to locate and open the book.

**To use EZ2VSB21.BOO, do the following:**

1 Insert any disc from this collection (other than the tools disc, if a separate tools disc is provided) into your CD-ROM drive.

2 Display the list of bookshelves. Do **one of** the following:

- If you have set your autorun preferences to open the IBM Softcopy Reader for the type of disc you inserted, your browser automatically displays the list of bookshelves.
- In a command prompt window, change to the drive letter of your CD-ROM drive and enter the command to start your reader or select its icon and list the bookshelves on the disc.

The list of bookshelves will appear.

- Locate the BookManager icon.
- Click on the start menu and select the BookManager reader.

The list of bookshelves will appear.

3 In the list of bookshelves, look for the bookshelf titled "Booklet for *name* Collection."

4 Open the bookshelf.

5 Open the booklet.

6 You can do any of the following:

- Scroll through the booklet to find what you want.
- Go directly to the section of the booklet titled "Catalog for *name* Collection" and scroll through the lists.
- Search for an order number, keyword, or phrase in a book or bookshelf title.

**Note:** You might get more than one hit for the same book, because a book might be listed in more than one place.

7 When you have determined the disc the book is on, replace the disc you are looking at with the correct disc, if necessary.

8 Refresh the view and proceed as usual to locate and open the book.

## PDF Format of Softcopy Collection Index

The PDF file for the complete softcopy collection index is called SCINDEX.PDF. It is in the root directory of each disc in this collection. From the PDF file you can print high-quality output that looks very similar to printed books received from IBM.

You can view the PDF file with an Adobe Acrobat Reader. While viewing the PDF file, you can scroll through it or find an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.PDF, do the following:

- 1 Insert any disc from this collection into your CD-ROM drive.
- 2 Display SCINDEX.PDF. Do **one of** the following:
  - If you are viewing the HTML format of the collection index, go to “Other Formats” and select “PDF.”
  - If you are viewing the disc index, click on the Disc index tab to switch to the collection index. Then go to “Other Formats” and select “PDF.”
  - If you are viewing some other document in SCFRAME.HTM, move your mouse over the Collection index or Disc index tab. Use the radio buttons to select the collection index. Then go to “Other Formats” and select “PDF.”
  - Locate the icon for Adobe Acrobat Reader on your desktop or program list, then open SCINDEX.PDF from the root directory of the disc in the CD-ROM drive.
  - Go to the root directory and open SCINDEX.PDF.
- 3 You can do any of the following:
  - Scroll through SCINDEX.PDF to find what you want.
  - Use the Search function of the Adobe Acrobat Reader to find the order number, keyword, or phrase in a book or bookshelf title.

**Note:** You might get more than one hit for the same book, because a book might be listed in more than one place.
- 4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 5 Refresh the view and proceed as usual to locate and open the book.

## ASCII Text File Format of Softcopy Collection Index

The ASCII file for the catalog portion of the softcopy collection index is called SCINDEX.TXT. It is in the root directory of each disc in this collection. You can view it with your usual text editor or word processor, such as Notepad. While viewing SCINDEX.TXT, you can scroll through it or find an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.TXT, do the following:

- 1 Insert any disc from this collection into your CD-ROM drive.
- 2 Display SCINDEX.TXT. Do **one of** the following:
  - In a command prompt window, change to the drive letter of your CD-ROM drive and enter the command to start your usual text editor or word processor.
  - Locate the icon for your usual text editor or word processor.
  - Click on the start menu and select your text editor.

- 3 You can do any of the following:
  - Scroll through SCINDEX.TXT to find what you want.
  - Find the order number, keyword, or phrase in a book or bookshelf title.  
**Note:** You might get more than one hit for the same book, because a book might be listed in more than one place.
- 4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 5 Refresh the view and proceed as usual to locate and open the book.

---

## Softcopy Disc Index

Each numbered disc of this collection includes an HTML file listing the softcopy files on that specific disc. This file is called DISC.HTM and is in the root directory of each disc of this collection except the tools disc. You can view this file with a Web browser. Netscape and Internet Explorer are two popular browsers. While viewing this HTML file, you can scroll through it or search for an order number, keyword, or phrase in the title of a specific book or bookshelf.

You can set up your browser to link to the books on the CD after you locate the book you want. If you do not set up your browser for links to BookManager files, you can still view and search the HTML file to locate the disc that the book is on.

To use DISC.HTM, do the following:

- 1 Insert any numbered disc from this collection into your CD-ROM drive.
- 2 Do **one of** the following:
  - If you have set your autorun preferences to open the disc index for the type of disc you inserted, your browser automatically displays DISC.HTM.
  - If you are viewing the collection index, click on the Collection index tab to switch to the disc index.
  - If you are viewing some other document in SCFRAME.HTM, move your mouse over the Collection index or Disc index tab. Use the radio buttons to select the disc index.
  - Otherwise, go to the root directory and open SCFRAME.HTM. Place your mouse over the Collection index tab, then click on the radio button for the disc index.
- 3 From DISC.HTM, you can do any of the following:
  - Scroll through DISC.HTM to find what you want.
  - Use the Find function to find the order number, keyword, or phrase in a book or bookshelf title.  
**Note:** You might get more than one hit for the same book, because a book might be listed in more than one place.
- 4 Do **one of** the following:

**If You Have Set Up Your Browser for Links to BookManager Files:** Click on the link in DISC.HTM to open the book.

**Notes:**

- a. For instructions on setting up your browser, see “Setting Up Your Browser to Link to the Books on the CD” on page 82.
- b. In DISC.HTM, when you click on a link to a book, you might see a warning message prompting you to select whether to open the file or save it to disk. Select Open it. To view files without being interrupted by this warning, uncheck the box Always ask before opening this type of file.

**If You Have Not Set Up Your Browser Links to BookManager Files:**  
Proceed as usual to locate and open the book with IBM Softcopy Reader.

---

## Chapter 5. Other Items in This Collection

In addition to books, bookshelves, and bookshelf search indexes, this collection also contains:

- A program to set autorun preferences for the programs to run when a collection disc is inserted. For example, you can choose to automatically start Softcopy Reader, the softcopy index to the entire collection, or the softcopy index for a single disc. Or, you can choose not to have anything start automatically.

The program (SETUP.EXE) runs automatically the first time you insert a disc that contains it. After you save these preferences, the program does not run again unless you have set a preference to run it. For more information, see “Setting Autorun Preferences for Collection Discs” on page 79.

- A program that helps you install or update the softcopy tools included with this collection.

This install program runs only on Windows 95 (or later), or on Windows NT 4.0 (or later). Users of other operating systems can still install or update the softcopy tools and view the softcopy versions of the collection index and the *Installing, Managing, and Using the Online Library* book directly.

- A set of files that contain the code, in executable form, for the examples in the *VSE User Examples* books. For a description of how to obtain and use these files, go to “Getting Source for the VSE User Examples” on page 91.
- Selected books on this collection delivered as Portable Document Format (PDF) files.
- The IBM Softcopy Reader.

**Note:** This reader is enabled to view any online books in BookManager format. This includes online books on the IBM Online Library CD-ROMs or DVDs, online books that you can build yourself using BookManager BUILD programs, and online books that you receive from companies other than IBM. (Before March 1999, the IBM Library Readers could view only the stamped books on IBM Online Library CD-ROMs.)

- **For Users of z/OS, z/OS.e, OS/390, Windows 95, and Windows NT:** The SoftCopy Librarian lets you transfer BookManager bookshelves and books to a repository and manage them there. The repository can be set up on a z/OS, z/OS.e, or OS/390 host, or on a PC or LAN hard drive. You can access the books and bookshelves in these repositories with a BookManager READ program (such as READ/MVS or Softcopy Reader) or use the repositories to support BookManager BookServer. The SoftCopy Librarian runs on a workstation with Windows 95 or later, or Windows NT 4.0 or later.

To use the SoftCopy Librarian, you define a repository for the bookshelves and books that you want to manage. When you want to transfer bookshelves and books from a CD, DVD, or hard drive on your workstation to your repository, the SoftCopy Librarian shows you the items that you do not have in your repository and the items that have changed since the last time you transferred bookshelves and books to the repository. The SoftCopy Librarian will only transfer items if they are not already in your repository, or if they are replacements.

- SCINDEX.TXT, a file that contains an ASCII version of the catalog section of this softcopy collection index. This file has been formatted to use a monospace font when displayed.
- SCINDEX.HTM, a file that contains an HTML version of the catalog section of this softcopy collection index.
- SCINDEX.PDF, a file that contains a PDF version of this softcopy collection index.
- SCINDEX.BOO, a file that contains a BookManager version of this softcopy collection index.
- DISC.HTM, a disc-specific HTML file that lists the books on the disc that contains the file.
- INSTALL.TXT, a file that contains an ASCII version of *Installing, Managing, and Using the Online Library*. This file has been formatted to use a monospace font when displayed.
- BOOKENG.AGR and PLALRENG.AGR, ASCII files that contains the license agreements and terms and conditions for using and copying the books in this collection.

---

## Getting Source for the VSE User Examples

Since many of the examples included in the online library for the VSE User Examples are long, recreating them using an editor would be a tedious job. This section briefly discusses how you can get the source for these examples by:

- **Copying examples** (topics) from the following online books in the VSE User Examples Bookshelf:

Online Book	File Name
Example files from <i>VSE User Examples, Volume 1: General System Examples</i>	IES76E06
Example files from <i>VSE User Examples, Volume 2: ESA Exploitation, Subsystems, etc.</i>	IES77E06
Example files from <i>VSE User Examples, Volume 3: Networking, AFP Printers, etc.</i>	IES78E06
Example files from <i>VSE User Examples, Volume 4: Diagnostics</i>	IES79E06

- **Using .DSK files** from the \examples subdirectory on this CD-ROM. These are “compressed libraries” that contain source code for examples in the online books of the VSE User Examples Bookshelf. You can uncompress these files by using the LOADDISKF.EXE file, also in the \examples subdirectory.

## Copying Examples from Online Books – OS/2

BookManager READ/2 and Library Reader/2 have a copy function that allows you to temporarily store an example from a book on the OS/2 clipboard. After you have copied the example to the clipboard, you can insert it into a file for editing.

There are two ways to copy an example to the OS/2 clipboard:

- Mark an area of text in the Topic window to be copied to the clipboard.
- Select a topic heading in the Table of Contents window to copy the entire topic to the clipboard.

### Notes:

1. The clipboard has a capacity of 64KB (approximately 800 lines of text). Some of the VSE user examples exceed this limit. You can copy one of these examples using Bookmanager READ/DOS or Library Reader/DOS, or you can use the .DSK file on the CD-ROM that has the example.
2. After you copy a VSE user example, remember to delete the first six columns in the copy. This is essential for column-sensitive code, like Assembler.

## Getting Started

Before you can copy from a book to the OS/2 clipboard, do the following:

- 1** Insert this CD-ROM into your CD-ROM drive.
- 2** Open the IBM Online Library using BookManager READ/2 or Library Reader/2.
- 3** Locate and open the VSE User Examples Bookshelf.

- 4 Open the VSE User Examples book from which you want to copy an example.
- 5 Locate what you want to copy. Do one of the following:
  - To mark and copy an example or part of an example to the OS/2 clipboard, go to the example you want to copy.
  - To copy an entire topic containing an example to the clipboard, go to the Table of Contents window.

### **Copying a Marked Area of Text to the OS/2 Clipboard**

You can mark any part of a book. To copy a marked area from the Topic window:

- 1 In the Topic window, mark the text to be copied by pressing the mouse button where you want the selection to begin and dragging the mouse over the area to be marked.
- 2 Click on Copy to clipboard. in the Services pull-down in the Book window, or select it and press Enter.

The Copy to clipboard choice is unavailable when the Topic window is active unless text has been marked.
- 3 The first time you copy data to the clipboard during a session, a copyright message is displayed. If you still want to copy text to the clipboard, remove the message by clicking on the OK pushbutton, or by selecting it and pressing Enter.

The marked text is copied to the OS/2 clipboard. No message is displayed to tell you the data was successfully copied, although a message is displayed if the copy was unsuccessful. You can view the clipboard to check its contents at any time by using the OS/2 System Editor.

### **Copying an Entire Topic to the OS/2 Clipboard**

To copy to the clipboard a topic shown in the Table of Contents window:

- 1 Click on the Options pull-down in the Book window, and then Tree. This lets you define the number of the topics displayed in the Table of Contents window. To display all topics, click on Expand all headings.
- 2 In the Table of Contents window, select the topic to be copied. If you select a topic that contains subtopics, indicated by the Plus (+) or Minus (-) icon, the topic and all its subtopics are selected.
- 3 Click on Copy to clipboard in the Services pull-down in the Book window, or select it and press Enter.

**Note:** The only topics in the Table of Contents that cannot be copied are CONTENTS, INDEX, FIGURES, and TABLES. When the Table of Contents window is active and any of these topics is selected, Copy to clipboard in the Services pull-down in the Book window is an unavailable choice.

## Pasting from the OS/2 Clipboard

When you have copied material to the clipboard, you can insert (paste) the contents of the clipboard into another OS/2 window (the window of an editor, for example). To do this:

- 1** Position the cursor in the entry area of the desired window at the point at which you want the material to be pasted.
- 2** Press Shift+Ins.

The contents of the clipboard are inserted into the entry area.

## Copying Examples from Online Books – Windows

BookManager READ for Windows and Library Reader for Windows offer two ways to copy examples from a book:

- A copy function allows you to temporarily store an example from a book on the Windows clipboard. After you have copied the example to the clipboard, you can insert it into a file for editing.

**Note:** The clipboard has a capacity of 64KB (approximately 800 lines of text). Some of the VSE user examples exceed this limit. You can copy one of these examples using the “print to a file” function, or you can use the .DSK file on the CD-ROM that has the example.

- A “print to a file” function allows you to copy a topic directly into a file for editing.

**Note:** After you copy a VSE user example, remember to delete the first six columns in the copy. This is essential for column-sensitive code, like Assembler.

## Getting Started

Before you can copy from a book to the Windows clipboard, do the following:

- 1** Insert this CD-ROM into your CD-ROM drive.
- 2** Open the IBM Online Library using BookManager READ for Windows or Library Reader for Windows.
- 3** Locate and open the VSE User Examples Bookshelf.
- 4** Open the VSE User Examples book from which you want to copy an example.
- 5** Locate what you want to copy. Do one of the following:
  - To mark and copy an example or part of an example to the Windows clipboard, go to the example you want to copy.
  - To print an entire topic containing an example to a file, go to the topic containing the example you want.

## Copying a Marked Area of Text to the Windows Clipboard

You can mark any part of a book. To copy a marked area from the Topic window:

**1** In the Topic window, mark the text to be copied by pressing the mouse button where you want the selection to begin and dragging the mouse over the area to be marked.

**2** Click on Copy in the Edit pull-down window.

The Copy choice is unavailable unless text has been marked. The marked text is copied to the Windows clipboard. No message is displayed to tell you the data was successfully copied, although a message is displayed if the copy was unsuccessful. You can view the clipboard to check its contents at any time by using the Clipboard Viewer.

## Pasting from the Windows Clipboard

When you have copied material to the clipboard, you can insert (paste) the contents of the clipboard into another window (the window of an editor, for example). To do this:

**1** Position the cursor in the entry area of the desired window at the point at which you want the material to be pasted.

**2** Select Paste. Do one of the following:

- **For Windows Applications:**
  - a. Select Edit from the action bar of the application you are using.
  - b. In the Edit pull down, select Paste.
- **For Non-Windows Windowed Applications:**
  - a. Click on the Control menu of the application you are using.
  - b. Select Edit from the menu.
  - c. Select Paste from the Edit window.
- **For Non-Windows Full-Screen Applications:**
  - a. Click on the Control menu of the application you are using.
  - b. Select Paste from the menu.

The contents of the clipboard are inserted into the entry area.

## Printing an Entire Topic to a File

To print an entire topic to a file:

**1** Go to the action bar, and select Print.

**2** In the window that appears, select an item in What to Print and What to Include.

**3** Select the Print to File box.

**4** Select the OK button.

**5** In the window that appears, identify the file into which you want to copy.

- 6 Select the OK button.

The contents of the topic are inserted into the file you named.

## Copying Examples from Online Books – DOS

Using BookManager READ/DOS or Library Reader/DOS, the Copy... choice in the serVices pull-down lets you copy one or more topics (examples) from a book to a separate file on your programmable workstation.

### Getting Started

Before you can copy from a book to a file, do the following:

- 1 Insert this CD-ROM into your CD-ROM drive.
- 2 Open the IBM Online Library using BookManager READ/DOS or Library Reader/DOS.
- 3 Locate and open the VSE User Examples Bookshelf.
- 4 Open the VSE User Examples book from which you want to copy an example.
- 5 Locate the topic you want to copy.

### Copying a Topic to a File

To copy a topic containing an example to a file, do this:

- 1 Press Alt-V  
or  
Press F10, place the cursor on serVices, then press Enter.  
The serVices pull-down is displayed.
- 2 Place the cursor on Copy...
- 3 Press Enter. The Copy pop-up window is displayed.
- 4 Type the identifier of the first topic you want to copy in the From topic input field.
- 5 Type the identifier of the last topic you want to copy in the Through topic input field.
- 6 Type a file name and extension for the new file in the Copy file name input field. You can also specify drive and directory. If not specified, the file is stored on the current directory. If a file exists with that name, topics are appended to it.
- 7 Notes may be included in the topic to be copied. The Copy pop-up window indicates either without note (the default setting), or with note. You can change the setting using the F2 key, depending upon whether you want to include or exclude notes.

- 8 Press Enter to begin copying. A message informs you when copying is completed.

**Notes:**

1. After you copy a VSE user example, remember to delete the first six columns in the copy. This is essential for column-sensitive code, like Assembler.
2. If you press F2 in the Copy pop-up window, this setting remains active for both the Copy and Print functions. Notes copied with a topic are imbedded within the text of the topic. The text of the note is preceded and followed by a dashed line.

## Using .DSK Files to Obtain Source Code

The CD-ROM has eight .DSK files that contain source for examples that appear in the books of the VSE User Examples Bookshelf.

.DSK File	Contents
VOL1GEN.DSK	General examples from IES76E06, <i>VSE User Examples, Volume 1</i>
VOL1JOBP.DSK	Examples for controlling job processing from IES76E06, <i>VSE User Examples, Volume 1</i>
VOL2GEN.DSK	General examples from IES77E06, <i>VSE User Examples, Volume 2</i>
VOL2CICS.DSK	CICS examples from IES77E06, <i>VSE User Examples, Volume 2</i>
VOL2VMR.DSK	VM and REXX examples from IES77E06, <i>VSE User Examples, Volume 2</i>
VOL3GEN.DSK	General examples from IES78E06, <i>VSE User Examples, Volume 3</i>
VOL3APPS.DSK	“Application” examples from IES78E06, <i>VSE User Examples, Volume 3</i>
VOL4ALL.DSK	All examples from IES79E06, <i>VSE User Examples, Volume 4</i>

These .DSK files are “compressed libraries” that contain numerous source code files. You can “explode” (decompress) each of them to a 2MB diskette using LOADDSKF.EXE.

### Exploding the .DSK Files

The .DSK files contain only source code for examples. They do not contain any of the “cookbook” or procedural information that also is in the online books for the VSE User Examples project.

- On an OS/2 2.1 system, you can uncompress them from either an OS/2 or a DOS session.
- On a Windows 3.1 system, you can uncompress them from a DOS session.

For example, to put the source for general examples in Volume 1 onto a diskette:

**1** Insert the CD-ROM for the *VSE Collection* in your CD-ROM drive.

**2** Insert a formatted 2MB diskette in drive A

**3** Access the \examples directory on the CD-ROM

**4** Enter this command:

```
loadskf vol1gen.dsk a:
```

This places the separate source files in the .DSK file on the diskette.

If you use a .DSK file, please be sure to review the READVSEX file in the \examples subdirectory. The file, which has the PC file qualifier .TXT, contains information about the contents of the .DSK files and the PC file qualifiers used for source code files.

---

## Accessing VSE/ESA Performance Documentation

Information about VSE/ESA performance documentation can be obtained from several sources:

- The VSE Online Library CD-ROM Collection, SK2T-0060, includes the VSE/ESA performance documentation, available as PDF files on disc 3, starting with VSE/ESA Version 2 Release 4 on the June 1999 edition.
- The VSE/ESA home page on the Internet provides access to the latest VSE/ESA performance documentation, available as PDF files.

The following PDF files are available:

<b>File</b>	<b>Contents</b>
<b>ve13pe03.pdf</b>	IBM VSE/ESA 1.3/1.4 Performance Considerations
<b>vevmpe00.pdf</b>	IBM VSE/ESA VM Guest Performance Considerations
<b>ve21pe03.pdf</b>	IBM VSE/ESA V2 Performance Considerations
<b>ve21td00.pdf</b>	IBM VSE/ESA Turbo Dispatcher Performance
<b>veiope00.pdf</b>	IBM VSE/ESA I/O Subsystem Performance Considerations
<b>vepera00.pdf</b>	IBM VSE/ESA Hints for Performance Activities
<b>vetcpe02.pdf</b>	IBM VSE/ESA TCP/IP Performance Considerations
<b>vesort00.pdf</b>	IBM DFSORT*/VSE Performance Considerations
<b>vecics03.pdf</b>	IBM VSE/ESA CICS* Transaction Server Performance Considerations
<b>ve25pe03.pdf</b>	IBM VSE/ESA 2.5 Performance Considerations
<b>vexefs01.pdf</b>	IBM VSE/ESA Performance on xSeries (NUMA-Q) Enabled for S/390
<b>ve26pe00.pdf</b>	IBM VSE/ESA 2.6 Performance Considerations
<b>vetp1400.pdf</b>	IBM VSE/ESA TCP/IP 1.4 Performance Considerations

To obtain the PDF files from the Internet, visit the VSE/ESA home page at

<http://www.ibm.com/servers/eservers/zseries/os/vse/>

PDF files are used with the Adobe Acrobat Reader. This viewer, which is available at no charge from the Internet, enables you to print part or all of the PDF file on a local printer.

The following are the contents of the documents:

- IBM VSE/ESA 1.3/1.4 Performance Considerations (1997-04-29)
  - Removal of Growth Bottlenecks
  - 31-Bit Addressing
  - Virtual Storage Constraint Relief (VSCR)
  - Data In Memory (DIM)
  - Virtual Disk
  - Workload Balancing
- IBM VSE/ESA V2 Performance Considerations (2001-07-15)
  - VSE/ESA 2.1 to 2.3 Performance Items

- H/W Compression
- More VSCR
- Enhanced Label Area, LTA
- DASD Sharing
- VSE/POWER
- CICS/VSE 2.3 and VTAM 4.2
- LE/VSE
- VSE/ESA Virtual Storage Optimization (shared and private space, SVA loading, 1M segment rounding, GETVIS hints)
- IBM VSE/ESA Turbo Dispatcher Performance (2000-07-31)
  - General MP Performance
  - VSE/ESA specific Implementation
  - Turbo Dispatcher (TD) benefits (also on UNIs)
  - TD Measurement Results
  - TD Performance Hints
  - TD Exploitation by vendor programs
  - VM/VSE specific n-way aspects
- IBM VSE/ESA I/O Subsystem Performance Considerations (2000-07-31)
  - I/O Tuning Principles
  - ECKD Benefits vs CKD
  - DASD Caching
  - Analysis of I/O Response Time Components
  - 3990-6
  - RAMAC 1 to RAMAC 3
  - RAMAC Virtual Array (RVA) (log structured file, IXFP, SnapShot)
  - RAMAC Electronic Array (REA)
  - RAMAC Scalable Array (RSA)
  - Multiprise Internal Disk
  - Tape Subsystems
  - IOCP and Performance
- IBM VSE/ESA VM Guest Performance Considerations (2000-07-15)
  - VSE DASD Definition and Performance
  - VM CCW Translation
  - I/O Passthru
  - VM Guest Types and Setup
  - VM Virtual Disk
  - VM Minidisk Caching

  - General TCP/IP Performance View
  - TCP/IP for VSE/ESA Product

- Performance Dependencies for Each Type of Load
  - TCP/IP Setup
  - Performance Results for TELNET, FTP
  - Interpreting Performance Displays
- IBM DFSORT/VSE Performance Considerations (2000-07-31)
  - DFSORT/VSE (types of sorting, storage, performance hints)
  - DFSORT/VSE 3.1 to 3.4 Enhancements
- IBM VSE/ESA CICS Transaction Server Performance Considerations (2001-03-30) (VECICSTS.PDF)
  - CICS TS Performance Line Items and Concepts
  - General CICS Performance Aspects
  - CICS TS Virtual Storage Management
  - New Facilities and Operational Aspects
  - CICS TS SIT entries for Performance
  - CICS TS Measurement Results
  - VSE/ESA 2.4 Performance Enhancements and Results (Appendix)
  - CICS VSAM Recovery (CICSVR) Hints (Appendix)
- IBM VSE/ESA 2.5 Performance Considerations (2001-07-15) (VE25PERF.PDF)
  - Base Enhancements
  - VSE/VSAM Enhancements
  - VSE/POWER Enhancements
  - CICS TS Enhancements
  - e-business related Enhancements
  - Enterprise Storage Server (ESS)
  - VSE JA and Reporting Enhancements (Appendix)
  - Sequential Disk Files (Appendix)
  - VSE Librarian (Appendix)
  - VSE/ESA Growth
- IBM VSE/ESA Performance on xSeries (NUMA-Q) Enabled For S/390 (2001-07-15)
  - NUMA-Q as such
  - FLEX-ES in general
  - Early results with FLEX-ES on NUMA-Q
  - NUMA-Q EFS Preview Announcement 11/2000
  - x/EFS Announcement 03/2001
- IBM VSE/ESA 2.6 Performance Considerations (2002-01-01) (VE26PERF.PRF)
  - Base Enhancements
  - Hardware Support
  - QDIO and OSA Express Adapter support
  - e-business related Enhancements
  - VSE Virtual Tape
  - SHAREOPT(4) avoidance for connectors
  - VSAM Redirector
  - VSE/ESA Growth
- IBM VSE/ESA TCP/IP 1.4 Performance Considerations (2002-01-01) (VETCP14.PRF)
  - General TCP/IP Performance View
  - TCP/IP for VSE/ESA 1.4 News

- QDIO and OSA Express Adapter support
- Performance Results for TELNET, FTP
- Performance Results for SSL

Document updates on the Internet may be done independently from the updates on the VSE CD ROM Collection.

File names on the VSE CD ROM slightly deviate from the names on the Internet (they have a version number in position 7 and 8, e.g. VECICS01.PDF instead of VECICSTS.PDF).

## Terms and Conditions for Items in This Collection

This collection contains unlicensed books and licensed programs. Before using or copying the books and programs on this collection, you must first read and agree to the terms and conditions specified for them below. If you do not agree, return this collection to IBM. By using or copying the books and programs on this collection, you agree to the terms and conditions and the license agreement.

**Note:** To display or print the ASCII files, insert any disc in the collection in your CD-ROM or DVD drive and use the TYPE or PRINT command with the drive letter of your drive. The following examples assume that the drive on your workstation is D. For example, to display or print the BOOKENG.AGR file, use the following commands:

```
type d:\bookeng.agr | more
print d:\bookeng.agr
```

If your drive is not D, replace the d in the examples with the drive letter for your system.

## Using and Copying Unlicensed Books

Unlicensed books on this collection have order numbers that begin with the letters "G" or "S." The terms and conditions for using and copying the unlicensed books are stated in a file called BOOKENG.AGR on this disc. The file is in ASCII format and can be displayed or printed from your personal computer.

## Using and Distributing the IBM Softcopy Reader Program

The terms and conditions for using and distributing the IBM Softcopy Reader program are stated in a file called PLALRENG.AGR on this collection. The file is in ASCII format and can be displayed or printed from your personal computer.

## Do You Have Questions, Problems, or Suggestions?

For problems using the Softcopy Reader, you may send an e-mail to [bookmgr@us.ibm.com](mailto:bookmgr@us.ibm.com) to directly contact BookManager Product Support.

For problems installing or using the library, or accessing books:

---

### In the U.S.A.

Do the following:

- 1** Call the IBM Support Center, 1+800+237-5511. You will first connect with a voice menu. Press **0** at any time to connect with a customer service representative.
- 2** Tell the customer rep your customer number (access code). If you do not have a customer number, use **BookMgr** as your generic customer number or access key.
- 3** The customer rep will ask you if this is a new or an existing problem. Answer:
  - **New** if this is the first time you have called about this problem.
  - **Existing** if you have a problem management record (PMR) number already assigned to the problem.

**Note:** Make sure you have your PMR number available.
- 4** The customer rep will ask you what software product operating system you are using. Answer "My product ID is 5648-032-00 and the queue is SCKIT,118."
- 5** Give the customer rep your name, address, phone number, and a description of the problem. The customer rep will generate your PMR and queue it to SCKIT.
- 6** Hang up and wait for a call back.

---

### In Other Countries

For detailed instructions on how to contact IBM, and for the contact telephone numbers in worldwide locations, go to the Software Support Handbook page on the World Wide Web at:

<http://techsupport.services.ibm.com/guides/handbook.html>

---

### In All Locations

For problems, questions, or suggestions about any of the books, contact IBM:

- **Mail** the Readers' Comments form from the back of this booklet or one that you printed from an online book, or address comments to:  
IBM Corporation  
Department 55JA, Mail Station P384  
2455 South Road  
Poughkeepsie, NY 12601-5400  
U.S.A.
- **FAX** comments to:  
**In the U.S. and Canada:** 1+845+432-9405  
**In other countries.:** IAC+1+845+432-9405
- **Send** comments electronically to:  
Internet: [mhvrcfs@us.ibm.com](mailto:mhvrcfs@us.ibm.com)  
World Wide Web: <http://www.ibm.com/servers/eserver/zseries/softcopy/feedback.htm>

IBMLink: IBMUSM10(MHVRCFS)

If you do not use the Readers' Comments form, please mention the order number of this collection (SK2T-0060-20) or the book you are using in your comments. If you would like a reply, include your name and address, your company's name, and your phone or FAX number.

IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.

---

# Communicating Your Comments to IBM

Online Library Omnibus Edition  
VSE Collection  
March 2002  
Publication No. SC23-3150-18

For problems installing or using the library, or accessing books, see Do You Have Questions, Problems, or Suggestions?. For problems, questions, or suggestions about any of the books, contact IBM.

If you especially like or dislike anything about this book, please use one of the methods listed below to send your comments to IBM. Whichever method you choose, make sure you send your name, address, and telephone number if you would like a reply.

Feel free to comment on specific errors or omissions, accuracy, organization, subject matter, or completeness of this book. However, the comments you send should pertain to only the information in this manual and the way in which the information is presented. To request additional publications, or to ask questions or make comments about the functions of IBM products or systems, you should talk to your IBM representative or to your IBM authorized remarketer.

When you send comments to IBM, you grant IBM a nonexclusive right to use or distribute your comments in any way it believes appropriate without incurring any obligation to you.

If you are mailing an RCF from a country other than the United States, you can give the RCF to the local IBM branch office or IBM representative for postage-paid mailing.

- If you prefer to send comments by mail, use the RCF at the back of this book.
- If you prefer to send comments by FAX, use this number:
  - FAX: (International Access Code)+1+845+432-9405
- If you prefer to send comments electronically, use this network ID:
  - IBMLink: (United States customers only): IBMUSM10(MHVRCFS)
  - Internet e-mail: mhvrcfs@us.ibm.com
  - World Wide Web: <http://www.ibm.com/servers/eserver/zseries/softcopy/feedback.htm>

Make sure to include the following in your note:

- Title and publication number of this book
- Page number or topic to which your comment applies

Optionally, if you include your telephone number, we will be able to respond to your comments by phone.
