Online Library

z/OS Licensed Product Library

September 2002

Note!

Before using this information and the products it supports, be sure to read the general information under Appendix A.

This softcopy collection index is available in an online version in this product library. It has been formatted for viewing by the IBM Softcopy Reader. You can find it (filename EZ2ZLB23.BOO) in its own bookshelf. It is also available as a BookManager file (filename SCINDEX.BOO), and as a PDF file (filename SCINDEX.PDF), in the root directory. The catalog section of the softcopy collection index is available as an HTML file (filename SCINDEX.HTM) and as a text file (filename SCINDEX.TXT), in the root directory.

Fourth Edition (September 2002)

This edition applies to the *z/OS Licensed Product Library*, September 2002, LK3T-4307-03.

Requests for IBM publications and additional copies of this product library should be made through your IBM representative, the IBM branch office serving your locality, or IBMLink.

A brief user's survey and comments form appears at the back of this softcopy collection index. After you have used this product library, please take a few minutes and fill it in. You can drop it in the U.S. Mail; the postage has already been paid by IBM. If the form has been removed, or if you have problems installing or using the IBM Online Library, or accessing the books, refer to Do You Have Questions, Problems, or Suggestions? following the index for information on how to contact IBM.

IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.

What's New in This Product Library

This section summarizes the product bookshelves, books, or other items that have been added, replaced, or removed since the previous edition, LK3T-4307-02. You may want to refer to Chapter 2, “Catalog of BookManager Files for This Product Library” on page 7 for the specific changes that have been made.

Note: Occasionally books move from one bookshelf to another as products are updated or made obsolete. These changes are not listed here. To find a particular book, try one of the following strategies.

- Search one of the online versions of this book:

- EZ2ZLB23.BOO in its own bookshelf
- SCINDEX.BOO in the root directory
- SCINDEX.HTM in the root directory (catalog section only)
- SCINDEX.TXT in the root directory (catalog section only)
- SCINDEX.PDF in the root directory

- Refer to “List of Books in This Product Library - Arranged by Order Number” on page 9.
- Search the “All-Disc” bookshelves. See “Comprehensive Bookshelves In This Product Library” on page 10 for more information.

New

The following items have been added to this product library for the first time.

Product Libraries Added	Filename
z/OS V1R4.0 IBM Communications Server	F1B1BK20

Replaced

The following items that appeared in the previous edition have been revised because of technical or service changes or enhancements. The previous levels of these items are no longer current and have been removed from this product library. They have been replaced by the revised items.

Product Libraries Replaced	Old Filename	New Filename
Booklet for z/OS Licensed Collection, September 2002	EZ2ZLS21	EZ2ZLS23
IBM Online Library Reference Bookshelf	AB0RWT2E	AB0RWT2G

Tools Changes

Streamlined Packaging, Improved Access to Softcopy

- Starting in June 2002, collections containing both BookManager and PDF files include an index to just the PDF files in the collection. The index is available in both HTML and text formats (PDFINDEX.HTM and PDFINDEX.TXT) in the root directory of the discs containing the softcopy files.
- Starting in March 2002, you can set autorun preferences for the programs to run when a collection disc is inserted in your disc drive. For example, you can choose to automatically start Softcopy Reader, the softcopy index for the entire collection, or the softcopy index for a single disc when you insert a disc containing softcopy files. Or, you can choose not to have anything start automatically. See “Setting Autorun Preferences for Collection Discs” on page 17 for more information.

To provide more options for accessing softcopy, multi-disc collections include softcopy indexes for each disc in the collection, as well as a softcopy index for the entire collection.

- Starting in June 2001, the softcopy collection index for a multi-disc collection is automatically displayed when you insert any of the discs other than the tools disc.
- Starting in September 2000, many IBM softcopy collections include a program to simplify installation of softcopy tools and improve access to the softcopy collection index files included on the collections. Here are the highlights of these redesigned collections:
 - Instead of hardcopy collection indexes (booklets), softcopy versions are provided in the root directory of each disc.
 - Instead of a hardcopy version of the *Installing, Managing, and Using the Online Library* book, softcopy versions are provided in the root directory of each disc.
 - For multi-disc collections, all the softcopy tools are on a separate tools disc, instead of on each disc. For single-disc libraries and collections, the tools are on the same disc as the softcopy publications.
 - A program helps you install or update softcopy tools.

This install program runs only on Windows 95 (or later), or on Windows NT 4.0 (or later). Users of other operating systems can still install or update the softcopy tools and view the softcopy versions of the collection index and the *Installing, Managing, and Using the Online Library* book directly.

IBM Softcopy Reader and IBM Library Readers

- The latest level of the IBM Softcopy Reader code is available for downloading from:

<http://www.ibm.com/software/office/bkmgr/about/index.html#products>

The program is also available on this product library in the **Vilrjava** directory. The level of the code on this product library is the one that was available when this product library was built.

- For an introduction to Softcopy Reader, see the Softcopy Reader chapter in *Installing, Managing, and Using the Online Library*, GC31-8311. For details, see the softcopy version of the *Softcopy Reader User's Guide*, SC34-3164, which is in the IBM Online Library Reference Bookshelf.

- Starting in March 2001, the IBM Library Readers for Windows, OS/2, and DOS are not being shipped on softcopy collections, and are no longer supported. Instead, only the IBM Softcopy Reader is included on the collections.

The IBM Library Readers will continue to be available as-is from the BookManager Web site for those users who choose to continue to use them.

For more information about BookManager products, including the latest news, go to the BookManager Web site:

<http://www.ibm.com/software/office/bkmgr/>

IBM SoftCopy Librarian

- The latest level of the IBM SoftCopy Librarian code is available for downloading from:

<http://publib.boulder.ibm.com/epubs/df/ebrsclwj.exe>

The program is also available on this product library in the `\scl` directory. The level of the code on this product library is the one that was available when this product library was built.

- For an introduction to SoftCopy Librarian, see the SoftCopy Librarian chapter in *Installing, Managing, and Using the Online Library*, GC31-8311. For details, see the softcopy version of the *SoftCopy Librarian User's Guide*, GC23-3414, which is in the IBM Online Library Reference Bookshelf.
- Starting in June 2002, SoftCopy Librarian (SCL) Version 3 is no longer included on softcopy collections. Only SCL Version 4 is included. Support for SCL Version 3 will be discontinued after September 30, 2002.

If you have been using SCL Version 3, use SCL Version 4 instead.

- Starting in September 2001, the Softcopy Receiver Tool (SCRT) is no longer supported. It is being shipped for the last time on the September and October 2001 softcopy collections. Use the SoftCopy Librarian (SCL) instead.

SCL for OS/2 is no longer supported and is provided on an as-is basis. The product code is available for downloading from:

<ftp://ftp.software.ibm.com/ps/products/ibmreader/tools/ebrscl2.exe>

- Starting in June 2001, the Java version of the SoftCopy Librarian, IBM SoftCopy Librarian V4.0 for Windows 95 and NT, is available.

Other Changes

- This product library does not include the hardcopy versions of the collection booklet (this document) and the *Installing, Managing, and Using the Online Library* book.

Softcopy versions are provided in BookManager, PDF, HTML, and ASCII (text) formats in the root directory of each disc in this collection (including the tools disc). The collection booklet is now called the *softcopy collection index*.

To improve access to the softcopy collection index, discs containing the softcopy libraries on this product library now include a program to set autorun preferences for the programs to run when a collection disk is inserted. One of the available options is to open the softcopy collection index.

For details on using the various formats of the softcopy collection index, see Chapter 4, "Locating Books in This Product Library" on page 17.

If you need hardcopy versions of these books, you can print one of the softcopy formats, such as the PDF format.

- The graphics in BookManager BOOK files from June 2002 and earlier have been upgraded to improve viewing under BookServer and Softcopy Reader. This upgrade increased the size of the affected files, resulting in the reorganization of some softcopy collections.

Other than this increase in size, the change is transparent. The upgrade did not disturb the original build date and time stamp of the affected BOOK files. None of the existing shelves and indexes are affected by the replacement of these BOOK files.

The upgrade primarily affects BOOK files that were built with host versions of the BookManager Build products and that contain graphic figures and illustrations. The original graphics were copied, converted into a Web-ready format, and inserted into the BOOK files for use with BookServer and Softcopy Reader. The original graphics still remain for viewing on host platforms. To benefit from the upgraded graphics, you should upgrade to the latest release of Softcopy Reader, Version 2.3.6 or later.

- The books on this collection apply to z/OS.e as well as to z/OS.

Contents of the z/OS Licensed Product Library

Welcome to the IBM Online Library! ☺

This section describes the contents of this product library.

Topics you may want to look at:	Go to page:
If you want an overview of the contents of this product library and how to start using it, see Chapter 1, Getting Started with This Product Library	3
If you want to plan for the hard disk space needed to store this information, see Disc Size Summary	8
If you want to know exactly what BookManager-format books are included in this product library, see Chapter 2, Catalog of BookManager Files for This Product Library	7
If you want to know exactly what PDF-format books are included in this product library, see Chapter 3, Catalog of PDF Files for This Product Library	15
If you want to know how to find a particular book in this product library, see Chapter 4, Locating Books in This Product Library	17
If you want to: <ul style="list-style-type: none">• Know the directories containing the books and other products on this product library• Learn how to use the files and tutorials that may be included in this product library see Chapter 5, Other Items in This Product Library	25

Chapter 1. Getting Started with This Product Library

This is the *z/OS Licensed Product Library*, September 2002, LK3T-4307-03. It contains all the licensed books available online for z/OS base elements and optional features. Using this product library, you can put a large number of IBM books online and access them without handling individual sets of books and libraries on many CD-ROMs and tapes.

This is an IBM Licensed Product Library. The books in this product library are formatted for display using BookManager BUILD. They can be viewed at your workstation or terminal using any of the following methods.

- The IBM Softcopy Reader, provided at no charge with the library
- AS/400 InfoSeeker, which is provided as a part of the Operating System/400 in Version 3
- Any of the IBM BookManager READ licensed programs for z/VM or or VM
- The IBM BookManager READ component of z/OS or OS/390

This softcopy collection index contains listings of the contents of the product library. It also contains information to help you determine the size of the online books, indexes, and shelves you need to use, as well as hints for customizing and distributing the Online Library to other workstations in your enterprise. *Installing, Managing, and Using the Online Library*, GC31-8311, included with this product library in softcopy, in the root directory and in the IBM Online Library Reference Bookshelf, will help you install and use the product library on your Windows, OS/2, or DOS workstation using this product library, and the IBM Softcopy Reader in it, as a starting point. If you have already installed an IBM Online Library on your workstation or host, you can use the books in this product library with your library as you would use the books in any collection that is part of the IBM Online Library.

For information on using this collection with the IBM reader programs, refer to the IBM Online Library Reference Bookshelf included in this product library.

Note: This softcopy collection index is available in an online version in this product library. It has been formatted for viewing by the IBM reader programs. You can find it (filename EZ2ZLB23.BOO) in its own bookshelf. It is also available as as a BookManager file (filename SCINDEX.BOO) and as a PDF file (filename SCINDEX.PDF), in the root directory. The catalog section of the softcopy collection index is available as an HTML file (filename SCINDEX.HTM) or text file (SCINDEX.TXT), in the root directory.

If You Are New to an IBM Online Library

If you want to install and use an IBM Online Library on your workstation, you should do the following:

- 1** Look at the catalog for a detailed list of the product libraries and other bookshelves in this product library. See Chapter 2, “Catalog of BookManager Files for This Product Library” on page 7.
- 2** For a detailed list of PDFs, see Chapter 3, “Catalog of PDF Files for This Product Library” on page 15.

- 3** Install the library on your workstation. See *Installing, Managing, and Using the Online Library*, GC31-8311.
- 4** Open the library and list the contents of this product library. See *Installing, Managing, and Using the Online Library*.
- 5** Learn to use the IBM Softcopy Reader. See *Installing, Managing, and Using the Online Library*.

Then, you may want to:

- Customize the library on your workstation. See the BookManager documentation in the Online Library Reference bookshelf.
- Share the library with others. See *Installing, Managing, and Using the Online Library*.

If You Are Already Using an IBM Licensed Product Library

If you already have an IBM product library installed and know how to use it, you may want to do the following:

- 1** Discover what is new or changed in this product library since the last time it was released. See “What's New in This Product Library” on page v.
- 2** Look at the catalog for a detailed list of the contents of this product library. See Chapter 2, “Catalog of BookManager Files for This Product Library” on page 7.
- 3** For a detailed list of PDFs, see Chapter 3, “Catalog of PDF Files for This Product Library” on page 15.
- 4** If you have centralized your online library, move the new or changed books you want from this product library to your LAN server or host. See *Installing, Managing, and Using the Online Library*.

Then, you may want to:

- Run the softcopy tool install program to ensure that you have the latest reader on your workstation. See *Installing, Managing, and Using the Online Library*.

Books on the Internet

The contents of several collections are available for viewing on the World Wide Web at <http://www.ibm.com/servers/eserver/zseries/zos>. Books on the Internet might be at a more current level than those on the collections. Click on Library to view, print, and order z/OS books.

PDF Files for Books in This Product Library

Printable files in Portable Document Format (PDF) are available for selected books in this product library. These PDF files are provided in the \pdf directory on this product library. The PDF files have the same filenames as the corresponding BookManager BOOK files contained on this collection. For a list of the PDF files, see Chapter 3, "Catalog of PDF Files for This Product Library" on page 15.

You can use an Adobe® Acrobat® Reader™ to view and print the PDF files. If you do not already have an Acrobat Reader installed, you may install one from the CD-ROM using the SCTOOLS.EXE program. If this reader is not appropriate for your system, or if you need information about installing and using an Acrobat Reader, see the Adobe Web site at <http://www.adobe.com>

Learning More About the IBM Online Library

To learn more about the IBM Online Library organization and availability, visit the IBM softcopy publications home page on the World Wide Web at:
<http://www.ibm.com/servers/eserver/zseries/softcopy/>

Chapter 2. Catalog of BookManager Files for This Product Library

This is the catalog of BookManager files for the z/OS Licensed Product Library.

Current Libraries

The product libraries included in this product library contain the latest available updates of the books. Some books have not been updated since the previous release of the product and are still valid for the current release of the product.

This catalog contains:

Book Lists

- All books arranged numerically by order number
- Each book list contains the following information:
- The order number of the printed version of each book
 - The title of each book
 - The file name of each book

Bookshelf Lists

- Comprehensive bookshelves
 - An all-collection bookshelf
- Licensed bookshelves arranged alphabetically by product
- Other bookshelves arranged alphabetically

Each bookshelf list contains the following information:

- The full name of the bookshelf
- The program number (if the bookshelf contains a product library)
- The titles of the books
- The file names of the books, the bookshelf, and the bookshelf search index
- The sizes of the books, the bookshelf, and the bookshelf search index
- The total size of the bookshelf

Notes:

1. Sizes are given in megabytes, rounded to the nearest hundredth (1MB = 1 000 000 bytes).
2. The “*” in the first column of the tables identifies the books, bookshelves, and search indexes that are new or changed.

For a complete description of technical and service changes, see the “Summary of Amendments” in the indicated books.

3. The product books, bookshelves, and bookshelf search indexes in the IBM Online Library are named according to the following pattern:

bbbbbbss

Where:

bbbbbb is a six-character identifier for a book, bookshelf, or bookshelf search index. This identifier is always the same for the book to which it is assigned.

ss is a two-digit sequence number that identifies the level of the book, bookshelf, or bookshelf search index. This sequence number changes each time a new level of the book, bookshelf, or bookshelf search index is released.

4. All books in this product library appear in U.S. English.

What's on the CD?

This library contains one CD-ROM, organized as follows:

- Licensed libraries for z/OS
- Softcopy tools
- Install program for softcopy tools

This disc also includes online versions of the softcopy collection index and the *Installing, Managing, and Using the Online Library* book.

Estimating Hard Disk Space Requirements

If you are copying books to a hard disk, refer to the sizes of books, bookshelves, and bookshelf search indexes listed in the “Disc Size Summary” and in the individual bookshelf descriptions in the Chapter 2, “Catalog of BookManager Files for This Product Library” on page 7.

Disc Size Summary

Title	MB
All-product library bookshelf	0.00
All-product library bookindex	0.15
Individual bookshelves on the disc	0.00
Individual bookindexes on the disc	5.99
All books on the disc	5.15
All PDFs on the disc	33.25
Total Size of Product Library	44.55

Chapter 4. Locating Books in This Product Library

Several aids in this product library can help you find books.

- A program to set autorun preferences for collection discs (see “Setting Autorun Preferences for Collection Discs”)
- For each disc containing BookManager files, an all-disc bookshelf for searching the content of all books on that disc (see “All-Disc Bookshelf” on page 18)
- Various formats of the softcopy collection index for searching the titles, order numbers, and file names of softcopy files on the collection (see “Softcopy Collection Index” on page 18)

Note: The softcopy collection index is an online guide to this collection.

Setting Autorun Preferences for Collection Discs

This product library includes a program to set autorun preferences for the programs to run when a collection disc is inserted. For example, you can choose to automatically start Softcopy Reader, the softcopy index to the entire collection, or the softcopy index for a single disc. Or, you can choose not to have anything start automatically.

The program (SETUP.EXE) runs automatically the first time you insert a disc that contains it. A window opens where you can select the autorun preferences for each type of collection disc. These are the preferences you can set:

- **For discs containing only BookManager files:**
 - Open the IBM Softcopy Reader.
 - Open the disc index.
 - Open the collection index.
 - Do not start any programs.
 - Show the autorun preferences window.
- **For discs containing only PDF files:**
 - Open the disc index.
 - Open the collection index.
 - Do not start any programs.
 - Show the autorun preferences window.
- **For discs containing both BookManager and PDF files:**
 - Open the IBM Softcopy Reader.
 - Open the disc index.
 - Open the collection index.
 - Do not start any programs.
 - Show the autorun preferences window.

To set your autorun preferences:

1. For each type of collection disc, select an autorun preference.

Use the selection list or Back and Next buttons to select the type of collection disc.

2. When you are done, click the Finish button.

You can preview a preference before setting it by clicking on one of the "Open... now" buttons.

After you save these preferences, the program does not run again unless you have set a preference to run it.

To change your preferences after initially setting them, do one of the following:

- If you are already viewing the collection index (on a disc other than the tools disc), click on the link to SETUP.EXE in the tips section.
- Otherwise, go to the root directory of a collection disc (other than the tools disc) and run SETUP.EXE.

All-Disc Bookshelf

If you haven't narrowed your search to a product library or book but you know which disc to look on, the *All-Disc* bookshelf on that disc can help you find the book you need. After inserting the disc, go to the bookshelf titled *All-Disc x Bookshelf* and use it to search the contents of all the BookManager BOOK files on the disc. This search can take substantial time because you might be searching the contents of several hundred books.

Softcopy Collection Index

This product library includes four formats of a softcopy collection index to help you locate specific books and bookshelves. The available formats are:

- **HTML:** For viewing with a Web browser. For more information about using the HTML file, see "HTML Format of Softcopy Collection Index."
- **BookManager:** For viewing and searching with the IBM Softcopy Reader. For more information about using the BookManager file, see "BookManager BOOK Format of Softcopy Collection Index" on page 21.
Note: When you select the BookManager format, you might see a warning message prompting you to select whether to open the file or save it to disk. Select *Open it*. Also, to view BookManager files without being interrupted by this warning, uncheck the box *Always ask before opening this type of file*, which is also displayed in this warning message.
- **PDF:** For viewing and printing with an Adobe Acrobat Reader. For more information about using the PDF file, see "PDF Format of Softcopy Collection Index" on page 22.
- **Text (ASCII):** For viewing with a workstation file viewer. For more information about using the TXT file, see "ASCII Text File Format of Softcopy Collection Index" on page 23.

HTML Format of Softcopy Collection Index

The HTML file for the catalog portion of the softcopy collection index is called SCINDEX.HTM. It is in the root directory of each disc in this product library. You can view this file with a Web browser. Netscape and Internet Explorer are two popular browsers. While viewing this HTML file, you can scroll through it or search for an order number, keyword, or phrase in the title of a specific book or bookshelf.

You can set up your browser to link to the books on the CD after you locate the book you want. If you do not set up your browser for links to BookManager files, you can still view and search the HTML file to locate the disc that the book is on.

To use SCINDEX.HTM, do the following:

- 1 Insert any numbered disc from this product library into your CD-ROM drive.
 - 2 Do **one of** the following:
 - If you have set your autorun preferences to open the collection index for the type of disc you inserted, your browser automatically displays SCINDEX.HTM.
 - Otherwise, go to the root directory and open SCFRAME.HTM, which displays SCINDEX.HTM as part of SCFRAME.HTM.
 - 3 When viewing SCINDEX.HTM, you can do any of the following:
 - Scroll through SCINDEX.HTM to find what you want.
 - Use the Find function to find the order number, keyword, or phrase in a book or bookshelf title.
- Note:** You might get more than one hit for the same book, because a book might be listed in more than one place.
- 4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.

- 5 Do **one of** the following:

If you have set up your browser for links to BookManager files: Click on the link in SCINDEX.HTM to open the book.

Notes:

- a. For instructions on setting up your browser, see “Setting Up Your Browser to Link to the Books on the CD.”
- b. In SCINDEX.HTM, when you click on a link to a book, you might see a warning message prompting you to select whether to open the file or save it to disk. Select **Open** it. To view files without being interrupted by this warning, uncheck the box **Always ask before opening this type of file**.

If you have not set up your browser links to BookManager files: Proceed as usual to locate and open the book with IBM Softcopy Reader.

Setting Up Your Browser to Link to the Books on the CD

You can use the HTML collection index without setting up your browser to link to the BookManager files. However, although you will be able to read what is on each disc in the product library, you will not be able to open the books from the softcopy index.

To link to and open the BookManager files from the HTML file, your browser preferences must specify which program it should use to open files with the various BookManager file extensions (BKS, BKSHELF, BKI, BKINDEX, BOO, and BOOK).

If you want your browser to link to BookManager files, first install the IBM Softcopy Reader. You can use the install program provided with this product library to install the reader.

Note: Regardless of how you install the IBM Softcopy Reader, make sure to shut down and restart your browser afterwards. This insures that the browser will invoke the IBM Softcopy Reader to open BookManager files.

Using SCINDEX.HTM on Your Desktop or on a Server

After transferring softcopy files from a collection to your desktop or a server, you might want to provide the same access to these files as you have when SCINDEX.HTM is loaded within the SCFRAME.HTM frameset on a collection disc. Here are some tips for doing this.

- Copy the contents of the root directory and \AUTOHTML directory from a numbered disc in the desired collection to your computer or server, using the same directory structure as on the collection.

For example, you could create a directory called \IBMB00KS and nest the copied directories under it. Copy the files from the root directory of the collection into this top-level directory, and copy the contents of the \AUTOHTML directory of the collection disc into the \AUTOHTML directory under your top-level directory.

You should end up with a directory structure similar to this:

```
IBMB00KS
|
-- > BOOKS
|
-- > SHELVES
|
-- > AUTOHTML
```

- If you copy the contents of several collection discs to a local repository, delete the DISC.JS and CHKDISC.JS files from the \AUTOHTML directory on your system, and delete DISC.HTM from the top-level directory (such as IBMB00KS). Deleting these files enables the SCINDEX.HTM file to work as if the softcopy files it links to are all on one disc.
- The links in SCINDEX.HTM assume that the book and bookshelf files are in the \BOOKS and \SHELVES directories, and the PDF files are in the \PDF directory. If you moved the files into other directories, you must edit the links in SCINDEX.HTM to point to those directories.
- The links assume that you are using SCINDEX.HTM and the files it links to (books, bookshelves, PDFs) from the same drive. There might be situations when you cannot do this. For instance, if you are linking to books that are accessible on a server, you must change the links to match the drive letter on which the linked-to files are mounted.
- To create a desktop shortcut for launching SCFRAME.HTM from within your top-level directory (such as \IBMB00KS):
 1. Right-click SCFRAME.HTM.
 2. Drag it to your desktop.
 3. Select the option to Create Shortcut Here.
- Each time the collection is updated, refresh your repository from the contents of the root directory and \AUTOHTML directory of the collection discs. The interface

is constantly being improved, and this is the only way to be assured of getting the latest code.

BookManager BOOK Format of Softcopy Collection Index

The BookManager format of the complete softcopy collection index is provided in two locations, under two different filenames. (Other than the filenames, the two files are identical.)

- The copy accessible from the root directory or through SCFRAME.HTM is called SCINDEX.BOO. It is in the root directory of each disc in the product library.
- The other copy is called EZ2ZLB23.BOO. It is located in its own bookshelf on each disc in the product library, other than the tools disc (if a separate tools disc is provided). For example, in the OS/390 Collection the bookshelf is called “Booklet for OS/390 Collection.”

The BookManager format provides the best search function of all the formats. It can also be used to print selected sections of the book, but the PDF format is recommended for printing large sections or an entire book.

You can view either copy of the BOOK file with IBM Softcopy Reader (on your workstation), or with an IBM BookManager READ program (on the host). While viewing the BOOK file, you can scroll through it or search it for an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.BOO, do the following:

- 1 Insert any disc from this product library into your CD-ROM drive.
- 2 Do **one of** the following:
 - If you are viewing the HTML format of the collection index, go to “Other Formats” and select “BookManager.”
 - Otherwise, go to the root directory and open SCINDEX.BOO.
- 3 You can do any of the following:
 - Scroll through SCINDEX.BOO to find what you want.
 - Go directly to the section of SCINDEX.BOO titled “Catalog for *name* Collection” and scroll through the lists.
 - Search for an order number, keyword, or phrase in a book or bookshelf title.
Note: You might get more than one hit for the same book, because a book might be listed in more than one place.
- 4 When you have determined the disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 5 Proceed as usual to locate and open the book.

To use EZ2ZLB23.BOO, do the following:

- 1 Insert any disc from this product library (other than the tools disc, if a separate tools disc is provided) into your CD-ROM drive.
- 2 Display the list of bookshelves. Do **one of** the following:
 - If you have set your autorun preferences to open the IBM Softcopy Reader for the type of disc you inserted, your browser automatically displays the list of bookshelves.
 - In a command prompt window, change to the drive letter of your CD-ROM drive and enter the command to start your reader or select its icon and list the bookshelves on the disc.

The list of bookshelves will appear.
 - Locate the BookManager icon.
 - Click on the start menu and select the BookManager reader.

The list of bookshelves will appear.
- 3 In the list of bookshelves, look for the bookshelf titled “Booklet for *name* Collection.”
- 4 Open the bookshelf.
- 5 Open the booklet.
- 6 You can do any of the following:
 - Scroll through the booklet to find what you want.
 - Go directly to the section of the booklet titled “Catalog for *name* Collection” and scroll through the lists.
 - Search for an order number, keyword, or phrase in a book or bookshelf title.

Note: You might get more than one hit for the same book, because a book might be listed in more than one place.
- 7 When you have determined the disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 8 Refresh the bookshelf view in Bookshelf Organizer and proceed as usual to locate and open the book.

Note: If you are using Softcopy Reader 2.3.5 or later, the bookshelf view is automatically refreshed by default.

PDF Format of Softcopy Collection Index

The PDF file for the complete softcopy collection index is called SCINDEX.PDF. It is in the root directory of each disc in this product library. From the PDF file you can print high-quality output that looks very similar to printed books received from IBM.

You can view the PDF file with an Adobe Acrobat Reader. While viewing the PDF file, you can scroll through it or find an order number, keyword, or phrase in the title

of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.PDF, do the following:

- 1 Insert any disc from this product library into your CD-ROM drive.
- 2 Display SCINDEX.PDF. Do **one of** the following:
 - If you are viewing the HTML format of the collection index, go to “Other Formats” and select “PDF.”
 - Locate the icon for Adobe Acrobat Reader on your desktop or program list, then open SCINDEX.PDF from the root directory of the disc in the CD-ROM drive.
 - Go to the root directory and open SCINDEX.PDF.
- 3 You can do any of the following:
 - Scroll through SCINDEX.PDF to find what you want.
 - Use the Search function of the Adobe Acrobat Reader to find the order number, keyword, or phrase in a book or bookshelf title.

Note: You might get more than one hit for the same book, because a book might be listed in more than one place.
- 4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 5 Refresh the view and proceed as usual to locate and open the book.

ASCII Text File Format of Softcopy Collection Index

The ASCII file for the catalog portion of the softcopy collection index is called SCINDEX.TXT. It is in the root directory of each disc in this product library. You can view it with your usual text editor or word processor, such as Notepad. While viewing SCINDEX.TXT, you can scroll through it or find an order number, keyword, or phrase in the title of a specific book or bookshelf. If you locate the book you want, you can then see which disc it is on.

To use SCINDEX.TXT, do the following:

- 1 Insert any disc from this product library into your CD-ROM drive.
- 2 Display SCINDEX.TXT. Do **one of** the following:
 - In a command prompt window, change to the drive letter of your CD-ROM drive and enter the command to start your usual text editor or word processor.
 - Locate the icon for your usual text editor or word processor.
 - Click on the start menu and select your text editor.
- 3 You can do any of the following:
 - Scroll through SCINDEX.TXT to find what you want.
 - Find the order number, keyword, or phrase in a book or bookshelf title.

Note: You might get more than one hit for the same book, because a book might be listed in more than one place.

- 4 When you have determined which disc the book is on, replace the disc you are looking at with the correct disc, if necessary.
- 5 Refresh the view and proceed as usual to locate and open the book.

Chapter 5. Other Items in This Product Library

In addition to books, bookshelves, and bookshelf search indexes, this product library also contains:

- **SCINDEX.xxx:** The softcopy collection index, in various formats, which lists and links to all the softcopy books on this product library. For more information, see “Softcopy Collection Index” on page 18.
- **PDFINDEX.xxx:** The PDF collection index, in various formats, which lists and links to all the books in PDF format on this product library.
- **INSTALL.xxx:** The *Installing, Managing, and Using the Online Library* book, in various formats which describes the softcopy tools on this product library.
- **SCTOOLS.EXE:** A program to install or update softcopy tools.
SCREADME.TXT: Instructions for SCTOOLS.EXE.
- **SETUP.EXE:** A program to set or change preferences for accessing softcopy books when a disc is inserted. For more information, see “Setting Autorun Preferences for Collection Discs” on page 17.
- **IBM Softcopy Reader:** A program to help you view and search BookManager files and organize books and bookshelves.
- **IBM SoftCopy Librarian:** A program to help you manage BookManager files in a repository and download BookManager files from the Internet.
- **Adobe® Acrobat® Reader™:** A program to help you view and print PDF files.
- **Java™ Runtime Environment:** A program required by IBM Softcopy Reader and IBM SoftCopy Librarian.

Terms and Conditions for Items in This Product Library

This product library contains unlicensed books and licensed programs. Before using or copying the books and programs on this product library, you must first read and agree to the terms and conditions specified for them below. If you do not agree, return this product library to IBM. By using or copying the books and programs on this product library, you agree to the terms and conditions and the license agreement.

Note: To display or print the ASCII files, insert any disc in the product library in your CD-ROM or DVD drive and use the TYPE or PRINT command with the drive letter of your drive. The following examples assume that the drive on your workstation is D. For example, to display or print the BOOKENG.AGR file, use the following commands:

```
type d:\bookeng.agr | more
print d:\bookeng.agr
```

If your drive is not D, replace the d in the examples with the drive letter for your system.

Using and Copying Unlicensed Books

Unlicensed books on this product library have order numbers that begin with the letters "G" or "S." The terms and conditions for using and copying the unlicensed books are stated in a file called BOOKENG.AGR on this disc. The file is in ASCII format and can be displayed or printed from your personal computer.

Using and Distributing the IBM Softcopy Reader Program

The terms and conditions for using and distributing the IBM Softcopy Reader program are stated in a file called PLALRENG.AGR on this product library. The file is in ASCII format and can be displayed or printed from your personal computer.

Using Licensed Books

Licensed books on this product library have order numbers that begin with the letter "L." These books are classified as "Licensed Materials—Property of IBM." The terms and conditions for using licensed books are stated in the *Licensed Program Specifications* for the product to which they apply and in the IBM Customer Agreement.

To report problems with installing or using the library, or accessing books, see the sections that follow.

In the U.S.A.

Do the following:

- 1** Call the IBM Support Center, 1+800+237-5511. You will first connect with a voice menu. Press **0** at any time to connect with a customer service representative.
- 2** Tell the customer rep your customer number (access code). If you do not have a customer number, use **BookMgr** as your generic customer number or access key.
- 3** The customer rep will ask you if this is a new or an existing problem. Answer:
 - **New** if this is the first time you have called about this problem.
 - **Existing** if you have a problem management record (PMR) number already assigned to the problem.

Note: Make sure you have your PMR number available.
- 4** The customer rep will ask you what software product operating system you are using. Answer "My product ID is 5648-032-00 and the queue is SCKIT,118."
- 5** Give the customer rep your name, address, phone number, and a description of the problem. The customer rep will generate your PMR and queue it to SCKIT.
- 6** Hang up and wait for a call back.

In Other Countries

For detailed instructions on how to contact IBM, and for the contact telephone numbers in worldwide locations, go to the Software Support Handbook page on the World Wide Web at:

<http://techsupport.services.ibm.com/guides/handbook.html>

In All Locations

For problems, questions, or suggestions about any of the books, contact IBM:

- **Mail** the Readers' Comments form from the back of this booklet or one that you printed from an online book, or address comments to:
 - IBM Corporation
 - Department 55JA, Mail Station P384
 - 2455 South Road
 - Poughkeepsie, NY 12601-5400
 - U.S.A.
- **FAX** comments to:
 - In the U.S. and Canada:** 1+845+432-9405

In other countries: IAC+1+845+432-9405

- **Send** comments electronically to:

Internet: mhvrcfs@us.ibm.com

World Wide Web: <http://www.ibm.com/servers/eserver/zseries/softcopy/feedback.htm>

IBMLink: IBMUSM10(MHVRCFS)

If you do not use the Readers' Comments form, please mention the order number of this product library (LK3T-4307-03) or the book you are using in your comments. If you would like a reply, include your name and address, your company's name, and your phone or FAX number.

IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.

Communicating Your Comments to IBM

Online Library
z/OS Licensed Product Library
September 2002
Publication No. SC23-3428-03

For problems installing or using the library, or accessing books, see *Do You Have Questions, Problems, or Suggestions?*. For problems, questions, or suggestions about any of the books, contact IBM.

If you especially like or dislike anything about this book, please use one of the methods listed below to send your comments to IBM. Whichever method you choose, make sure you send your name, address, and telephone number if you would like a reply.

Feel free to comment on specific errors or omissions, accuracy, organization, subject matter, or completeness of this book. However, the comments you send should pertain to only the information in this manual and the way in which the information is presented. To request additional publications, or to ask questions or make comments about the functions of IBM products or systems, you should talk to your IBM representative or to your IBM authorized remarketer.

When you send comments to IBM, you grant IBM a nonexclusive right to use or distribute your comments in any way it believes appropriate without incurring any obligation to you.

If you are mailing an RCF from a country other than the United States, you can give the RCF to the local IBM branch office or IBM representative for postage-paid mailing.

- If you prefer to send comments by mail, use the RCF at the back of this book.
- If you prefer to send comments by FAX, use this number:
 - FAX: (International Access Code)+1+845+432-9405
- If you prefer to send comments electronically, use this network ID:
 - IBMLink: (United States customers only): IBMUSM10(MHVRCFS)
 - Internet e-mail: mhvrcfs@us.ibm.com
 - World Wide Web: <http://www.ibm.com/servers/eserver/zseries/softcopy/feedback.htm>

Make sure to include the following in your note:

- Title and publication number of this book
- Page number or topic to which your comment applies

Optionally, if you include your telephone number, we will be able to respond to your comments by phone.
