Licensed Program Specifications
Version 1 Release 2
Program Number 5686-011

IBM* CICS* VSAM Recovery/VSE (CICSVR/VSE) provides CICS/VSE* users with reliable recovery of VSAM data sets that have been updated by CICS for VSE/ESA* 2.3 or CICS Transaction Server for VSE/ESA.

Functions

Archive Utility:

- Creates a report with summary information on all the VSAM data sets detected on each journal.
- Makes one or more copies of your system log or user journals.

Forward recovery:

- Helps you recreate one or more VSAM data sets (from backup copies) when you determine a recovery is required.

Backout:

- Removes partially completed transactions from one or more VSAM data sets when CICS online backout has failed.

   Note: Backout is only supported with CICS TS.

Licensed Program Materials Availability

Restricted materials: None. This licensed program is available only in object code.

Supplemental Terms

Testing Period

- Basic License: One month
- Distributed Systems License Option (DSLO) License: Not applicable

Installation/Location License

- Not applicable. A separate license is required for each machine on which this licensed program is used.

Usage Restriction

- Not applicable
